No where in the FCC rules does it state that an Information bulletin
has to be a newscast. All those you mentioned are newscast. The rules
only state it has to be "solely of subject matter of interest to the
amateur radio service" (see below)

97.3 Definitions
(a) The definitions of terms used in Part 97 are:

(25) Information bulletin. A message directed only to amateur operators
consisting solely of subject matter of direct interest to the amateur
service.

97.111 Authorized transmissions.

(b) In addition to one-way transmissions specifically authorized
elsewhere in this Part, an amateur station may transmit the following
types of one-way communications:

(6) Transmissions necessary to disseminate information bulletins;

It's funny that people only read 97.113 and not the rest of the rules
including the definition

(10) Broadcasting. Transmissions intended for reception by the general public, either direct or relayed.

If the transmission is directed to the general public it's a broadcast, if it's directed to the amateur service and consist solely of subject matter of a direct interest to the amateur radio service then it's legal.

Are you asking about the Official Q-code lists as defined by International
Organizations
or
Common usage by Amateur Radio Operators ?

Official Q-codes are at URL:
http://www.kloth.net/radio/qcodes.php

I really haven't seen a reliable list of Ham common usage.
Perhaps the one from an ARRL Operating aid might be sited.
http://home.earthlink.net/~k7bfl/intqsig.html

An example of all this is Official QSX is "Will you listen to ... (call
sign(s)) on ... kHz (or MHz)?"

But Hams on the packet clusters use QSX to indicate where a DX station that
is operating split is listening. e.g., QSX 5 kHz

Official QTH is long/Lat, but Hams use it for city, town, or on repeaters
"Interstate 15 Southbond" or "near the mall" !

Good luck on the project. Going by common usage definitions can be fraught
with errors

These so called "FORMAL FELONY COMPLAINTs" are totally bogus!
K1MAN has no authority to so.
Read what the FCC had to say about this back in 2001:
December 11, 2001

Mr. Glenn A. Baxter
RR 1 Box 776
Belgrade Lakes, ME 04918

RE: Warning Notice--Amateur Radio license K1MAN
Dear Mr. Baxter:

The Commission has information that you have sent numerous so-called "Standard Felony Complaint Affidavits" to various Amateur Radio licensees that you perceive to either cause interference to your Amateur Radio station K1MAN or do not relinquish to you the frequency on which they are operating. Inasmuch as you have successfully completed an examination for an Amateur Radio license, you should be aware that all Amateur frequencies are shared. You have no greater rights whatsoever to an Amateur Radio frequency than any other Amateur Radio operator.

We also note that on January 5, 1994, the United States Attorney for your jurisdiction, Jay P. McCloskey, warned you about the mailing of such "Standard Felony Complaint Affidavits" and stated:

DO NOT send any more Standard Felony Complaint Affidavits to our office. The interference you allege, even if intentional, is not a federal criminal offense over which our office has prosecutorial jurisdiction.
The letter from United States Attorney McCloskey also referenced letters that you had sent other Amateur operators alerting them of supposed criminal charges instituted by McCloskey's office. In his letter to you, McCloskey stated:

It is against the law to write and mail this type of threatening communication, especially when it has no basis in fact. If you continue sending this type of letter, you may be subject to federal criminal charges for misrepresentation and for using the mails to make threats. You may also jeopardize your Amateur license.

You are advised that any attempts to threaten or intimidate Amateur Radio licensees operating on the Amateur bands will reflect adversely upon your qualifications to remain a Commission licensee, and will be the subject of a license revocation or renewal hearing.

Radio, lets see, echolink (AM) or skype (FM) with video tonight...
My biggest complaint about echolink is that all the calls with a
3 in them are grouped together, even if the 3 call is not in 3 land.
There needs to be an update that allows one to designate which area
they're really in. I can't stand seeing FL, CA and HI and can't find

Really, Roger. Which one of your personae is to hold the wagers?

> Sure you will, you can't even afford a decent TV...

I have a very nice television, UnWiseman--more than one in fact. You
can save that information with the info that I worked at Sears during
high school, forty years ago and that my car is yellow.

> and have yours
> underneath some broken down stairs.

Sorry, your information is incorrect. I have no broken down stairs.
How's that career as a repeater lurker working out for you? You'd be
amazed how often your name comes up, UnWiseman.

I didn't lie at all, you demented little man. I just wrote about it.

No lie at all. You were discussed before the arrival of your poison
missive. The employer knows what and who you are.

That "store" already has such a team. They own the property on which
the store sits. It isn't owned by the mall. They can ask anyone to

leave at any time. They've done so before. There is no reason to
believe that they won't do so again. There is one easy way for you to
test it: Walk in and attempt harassment of my wife.

You continue to underestimate people.

Dave K8MN

>

Many of us are aware of the dissention that Woger Wussman foments against
not only Dave, but also Mark, Todd, and others , so I have this question.
Since Woger feels it necessary to stalk all of the above, to look into who
lives where, and even check out the local bus stations near one's home, why
not look into where Woger works and post it?
Woger does seem to have more time on his hands than most as evidenced by his
more than 700 posts in February 2006 alone. Obviously, judging by the time
stamps, Roger has more weekdays off than weekends. Fast Order cook, anyone?

I will send a prepaid gift certificate for six deluxe family size pizzas
with unlimited toppings and six two liter bottles of the soft drink of
choice if someone can "spill the beans" as to where Woger allegedly works.

Heck...I will even be generous enough to send free pizzas to Woger's place
of employment.

If Woger can stalk and post the work places of others, well, is it not time
for payback?

What most people call broken down you call "rustic".

How's that career as a courier working out for you? Putting many more miles on that crappy yellow Dodge Neon then the over 100,000 miles when you bought it?

That's all you do is lie, you balding obssesed son of a bitch. You wrote that no lettrer was sent. Now you change your story.

Yes, you claimed he didn't mail a letter at all. And the only discussion was made after they recevied that letter.

Looks like they know what you and your Finnish ex-whore does, too. I wonder if corporate offices would take the same view as you do in your lies about it.

<guffaw> You are rather obtuse, you stupid son of a bitch. Roger would just have to walk in and let your Finnish ex whore go off on him. He wouldn't have to do a thing. Then, I wonder what the District Manager would do when he found out about it if the store manager didn't fire your works for commission only wife.

If one person continues to listen to his program, then it's an interest to someone in the amateur radio service. There is no real specification on how many people are require to listen to an information bulletin to deem it "an interest to the amateur radio service" and the courts would tell youhe samething. If even one person listens to it, it's an interest to someone in the service.

You, Not Roger, can thank your lucky stars that abortion was illegal in

stuffed a coat hanger up your Momma's birth canal and saved your momma lots

As it is, Woger, your birth momma gave you up for adoption anyway and she
tossed you out like the garbage you are. Back in the fifties they didn't
have dumpsters like we do now or you would have ended up under a pile of

you well. You and Riley are on a first name basis, after all. You are one
of his favorite miscreants.
Oh, wait. You claim that Riley can randomly call for a retest of VEC
licensees on a whim. You claim to be one of those who did nothing wrong and
that you actually upgraded. Yes, well and good, but the fact IS that Riley
cornered you because of your nasty activities on 20M. Your malicious jamming
is a matter of fact. Not allegations as you proclaim, but a matter of fact.

Calm down, Wogie. Take your Valium and the other psychoactive drugs your
doctor has prescribed, cut your four dialup connections in half, and do,
please, make an effort to stop seeing Lloyd everywhere you turn. You
really, really, do need professional help for your mental afflictions.

There is something seriously wrong with you, Woger. You need help.

Muahahahahhahahaha. That is a pretty good one. Maybe Woger does hide behind the curtains so he can participate in his shemale activities.

One thing about him is for sure and that is the fact he is nothing more than a boil on the ass of the universe. I know that curtains boy will be reading this and responidng soon. But he's my sock puppet and I can get him to respond.

You seem to know all ABOUT those black dicks Woger? But of course, it doesn't matter in your case because you don't discriminate at all. You like dicks any way you can get them just as long as they are property of someone else. and repeatedly used on your pock marked face and your well reamed ass. You have such an obsession with gays it makes one wonder if you used to be one or effeminate at the very least. It would explain a lot about your being a self loathing individual.

I'm not Todd but you seem to have an unhealthy obsession with him. I must think that you are a tad bit queer since you obsess over him. It sounds to me that you're pissed because the refused your gay advances. Nice try again Weissman or is it Wussman. Do you prefer the Jewish version of your name which you hide or the Americanized version. Noticeably, the Tampa area in which you lived had a pretty sizeable Jewish population. Funny how you condemn them.

When Dildos Are Outlawed, Only Outlaws Will Have Fun

Here's to the State of Mississippi!
The Fifth Circuit Court of Appeals has
today upheld Mississippi's sacred right to ban
the sale of adult sex toys. A Hinds County judge
ruled in 2003 that state law does not extend
the right to privacy to the commercial sale of sexual devices.

The Mississippi high court said there is
no fundamental right of access to buy sexual devices.

The justices said while a federal court had found
a similar Alabama law was unconstitutional, other
courts including ones in Georgia, Louisiana and
Texas have rejected attempts to expand the right
to privacy to include the commercial sale of sex toys. (Clarion Ledger)

Well, what can you buy in Mississippi? For starters, as many
handguns as you want. Ditto assault rifles. The guns don't
have to be ballistic fingerprinted before sale. You are allowed
to carry concealed weapons. Guns can be sold without child
locking devices and no background checks are required at
gun shows. Etc., etc. (Brady Campaign)

In other words, the Mississippi Attorney General has
banned dildos and vibrators but doesn't give a crap
about unlicensed straw sales of handguns.

Phil Ochs would probably have a pithy new verse
for his classic, "Here's to the State of Mississippi,"
but Phil's gone now so we'll just have to make
do with one he wrote when he was here:

"...and here's to the laws of Mississippi
Congressmen will gather in a circus of delay
While the Constitution is drowning in an ocean of decay
Unwed mothers should be sterilized, I've even heard them say
Yes, corruption can be classic in the Mississippi way
Oh, here's to the land you've torn out the heart of
Mississippi find yourself another country to be part of"

---

ps: Please, spare me the wind that this post has nothing to do with ham radio. Why just yesterday I heard someone we all know and love on 14.275 say that he was starting a new product line of rubber-duckie antennas for HT's that are shaped like a male appendage. I think he said he'd called it " The 14.313 RF Burner ".....

even according to the CDC

the CDC does not say I have aids if can show me where they say I do
tell you what I'll give 10 percent of the settlement I recieve from
their slander/libel and violating my civil rights and we can both
retire

I don't have AIDS no offical would ever say I do, indeed even if I had
AIDS no one would tell you about it

Perhaps you can join the trailer boys down there in GlenDale considering that you can't hold any sort of decent job or start a business. Oh, I forgot, your mommy Marie gave you that house now didn't she. But still you're too lazy to get off your back and get a job so they had to shut the utilities off now and again.

Stop slobbering on those dicks and you could understand English. Of course,
when you are speaking in West Virginia Hillbilly language and the only thing
you understand is "Boy, you sure have a pretty mouth" the fact is that
English isn't high on your priority list.

Wiseman doesn't own anything or anyone. It's doubtful that he even owns the computer he types this on. He lives in a shitty little house in Glen Dale WV. That his mother Marie gave him. It's so small that it couldn't have cost any more than maybe 25000 or so. He used to have a Yaesu 920 which probably had to be sold off to support his other habits. Not to mention the fact that when you monitor HF you never hear his piss willy signal. He couldn't scrape up the cash to get him a decent amplifier.

Even when he was jamming 20 and 75 meters you could hear others constantly keying over him. So much for the jamming attempt huh Woger. Didn't Riley send you a retest letter for that. Just because you couldn't understand or grasp the concept of good amateur practice. Oh, and by the way buy some decent equipment that way you can actually be heard on HF. He's pretty much limited to local VHF.frequencies now.

Roger moved back in with mommy because his ex's found out what a steaming piece of shit he really is. Of course, Woger is so delusional that he believes that certain people in this newsgroup are as fucked up as he is. Must be that West Virginia mentality.
I've been in the Mountaineer State several times and I have never seen such a screwed up place. Not to say there aren't good people there because there are but there's a lot of trash too.Woger is just another indictment of his state.

It's funny when you hear Wussman on the air on a daily basis. It's rare nowadays but in the old days before he worked constantly at BK he was involved in jamming the airwaves. But if you ever heard him he has a Doofus sounding voice. If you recall the character Doofus, that his what he really sounds like. He sounds like a Forrest Gump who has been hit in the head one too many times.

Hey Woger did you actually check out the statistics for that area? I'm not Todd but he lives in a county that is over 96 percent white. Only 2.3 percent black. I bet he has tons of black neighbors, RIGHT? You're such a loser Wussman. In fact, didn't you used to live in Tampa Florida where there is a high black population. Not to mention the fact that one of your ex's liked black men before you married her.

Blogger.com continues to allow copyright infringement and identity theft

I've asked repetitively blogger.com to remove this site http://newsgay.blogspot.com/ because it has on it a picture of me which is 1. COPYRIGHTED and is being used WITHOUT my permission and 2. the person running the site is make it out that I own the site, which I don't. This of course is Identity theft which is also a violation of federal law. If they do not remove it by this week I will notify the FTC which handles identity theft and I will seek a lawyer, to file suit for those violations of the law.

I see that you are still writing in the third person again Wussman. Or is it Weissman and does that explain your anti-semitism?

There is not one individual in this newsgroup as stupid as you are Wussman.
Even some of your hillbilly compatriots from the South aren't as dumb as you
are.

"That's interesting there idiot. I bet you really did flunk high school

"wasn't that when was in Floriduh" - Billy makes good fuck up!

Billy "shoots" himself in his palsied club foot once again in
Message-ID: <Q0bJf.19641$vU2.7735@newsread3.news.atl.earthlink.net>:
"Roger, shots himself in the foot"

Billy the illiterate retard Smith screws up again, and his illiteracy
is exposed. "It serves him right." in
<hauKf.1410$S25.940@newsread1.news.atl.earthlink.net>:
"Deserves him right."

Billy "retard" Smith confesses to his generally accepted retarded
status in <LwpLf.2321$F56.2317@newsread3.news.atl.earthlink.net>:
"I'm a general retard. bwhahaha"

Billy "spelling champ of the general retards" Smith admits his bad
hygiene but is still in denial about his English skills in
<QxpLf.2322$F56.1169@newsread3.news.atl.earthlink.net>
"Sure I can spell and smell."

"Billy" the NOtwordSmith fucks up again with this incompete sentence in

"So when you got divorced boy, did your finally figure out that your

Billy "cumgargler" Smith managed to awaken from his drunken stupor to
slobber
in <fbIOf.442$sL2.25@newsread2.news.atl.earthlink.net>:
"Isn't that you mom weighed"

Mr."Education" Billy Smith steps on his own dick again when he talks
about others' "educations" (or educatiion" as he spells it) in
<w7IOf.436$sL2.167@newsread2.news.atl.earthlink.net>:
"Uh, huh. Right LOSER. Still smoking that dope again? By the way how is
your
so called educatiion actually doing for you? Those online classes."

Billy Smith shows off his Pulitzer Prize writing skills in
<B9IOf.439$sL2.255@newsread2.news.atl.earthlink.net>:
"You're whole life has been exhaled before."

Oh, the irony, Toad, you calling somebody else dumb, dropout.

Make the call, Toad. Oh, that's right, your parents pay the phone bill, don't they?
Make the call if you can and ask. Thay'll let you know if he is indeed a graduate of USF or not. That's about all the info they are allowed to hand out, though. You'll have to keep making piss poor guesses as to what his major was. As it is your wont to do.
You are just jealous that Roger followed through with something (unlike you) and actually got a degree or two. You call them and you'll see he has credits toward a Master's too. You are a fucking imbecile and an eternal non-achiever, Toad.

Well, I lived in Meridian, MS for 10 years. Sadly I had to move back to NJ to take care of a family member. I enjoyed my time in Mississippi. There was little or none of the unbelievable liberal bull that there is here. If going back 75 years means outlawing dildoes, same-sex marriage, affirmative action, etc., I say it sound like Mississippi has the right idea. I suppose those that are so vocal in their opposition are those that use such appliances. Up here, it's an "alternative lifestyle," but in Mississippi, it's queers.

Not too many mosques in Mississippi, either.

Billy "spelling champ of the general retards" Smith admits his bad

"Sure I can spell and smell."

thanks for the free publicity steve, BTW the lolicon board is still up
and running with now 114 members and growing. We've been getting five a
day.
Were also discussing the problem on Not4chan (http://www.not4chan.org
)
and there's a long thread on the subject of COPPA. BTW you don't have
to go NAMBLA like steve here to join all you have to do is register and
it's free.

"Federal Judge Virginia A. Mathis dismissed
Charles A. Schlund's lawsuit against George W. Bush
late last year - without a legitimate reason for doing so.
Charles Schlund is going to appeal Judge Mathis'
decision. Charles Schlund is a whistleblower and
political witness who is being subjected to *high-tech*
[i.e. electronic] torture by the U.S. government, in order
to prevent him from exposing the *massive* corruption
of the Bush administration. The information that
Charles Schlund has is far more damaging to

has, and the government is desperate to prevent
Mr. Schlund from getting a fair trial."

No, you fucking retard, you are posting cartoon kiddie porn. Let's hope somebody uploads a trojan to your "server" so it wipes out it and your little cheapassed hard drive, too.

3634. TrueTTY software - packet question

Newsgroup: rec.radio.amateur.misc

Message-ID: <1142952772.407216.30200@z34g2000cwc.googlegroups.com>

Hi,
I have downloaded v2.55 of TrueTTY by UA9OV. I haven't tried it out yet with a rig but just running through the modes I notice that in RTTY mode when I click the TX button, the red light comes on and stays on and any text I type in is "sent" as, I imagine, it should be.

However, if I switch mode to AX25 and hit the TX button, the red light only stays on while I hold the mouse button down and it does not appear to try and transmit.

I wonder if this is a limitation in the non-registered version or if there is something I am missing as I would like to try this out before possibly purchasing the software.

Thanks,

Peter

Let's make something clear Child porn is illegal, well actually child porn is Legal, according to US Supreme Court Some of it may be artistic and therefore protected by the constitution. It the Processes on how it made that makes it illegal. In 1996 Congress passed the Child Pornography Prevention Act of 1996, which reinforced that that fact that the process on how child porn was created was illegal. But the law also banned "virtual child porn" that including computer generated, art, sculptures, cartoons and other artificial means. The US Supreme Court struck it down because it banned material that was protected under the first amendment, and unlike REAL child porn no children were harmed in the creation of it. The government also argued that people could use this material to entice children and also could be used child molesters to basic reinforce their behavior, but the court ruled that there was no evidence that such things happening as the court basically stated a child molester or child rapist isn't going to be using "virtual" material, their going to be using the real stuff. For if there was this big market for virtual child porn or "fake child porn" then the real child porn market will disappear, if a safer alternative was there. Safer for both the child (since virtual child porn doesn't use real children, but using artificial means i.e.. computer, art, sculptures, and cartoons) and safer for the distributers because he wouldn't be in fear of his life getting caught by the government, since child porn itself isn't illegal, only the process on how it's created is. So the Supreme Court struck down the CPPA, so Congress went back and passed the Child Obscenity Pornography Prevention Act (COPPA) COPPA again banned virtual child porn, (the computer generated stuff) but this time it has be "indistinguishable" and the term "indistinguishable" used with respect to a depiction, means virtually indistinguishable, in that the depiction is such that an ordinary person viewing the depiction would conclude that the depiction is of an actual minor engaged in sexually explicit conduct. This definition does not apply to depictions that are drawings, cartoons, sculptures, or paintings depicting minors or adults. The second part of COPPA made it Illegal of have painting, sculptures, cartoons that depict children having sex and are consider to be Obscene. The Second part of COPPA isn't a child porn law, it's a Obscenity law. For something to be consider obscene it be the following

"(1) an average person, applying contemporary community standards, must find that the material, as a whole, appeals to the prurient interest (i.e., material having a tendency to excite lustful thoughts);

(2) the material must depict or describe, in a patently offensive way, sexual conduct specifically defined by applicable law; and

(3) the material, taken as a whole, must lack serious literary,
artistic, political, or scientific value

To be consider Obscene it must be ALL three of those things listed above and if it survive just one it's not obscene. The first two are to be judge on a local or state level and the third is based on national level. In the State of Illinois it's not illegal to have cartoons (including the ones on my board) the State of Illinois on bans REAL child porn. Secondly cartoons have been deemed by the courts to be an art form, since they are drawn by hand they are an art form and protected under the first amendment. Finally, last time I check (which was last week) a group has challenged COPPA in the courts and it will be a long time before a final judgment will be issued.

You're looking to get into a LOT of trouble by selling these things *If* they happen to work at all! If they are no longer fit for service, they should be destroyed. I'm sure the local Civil Air Patrol would LOVE to have to chase down a non-emergency ELT--as if they don't have enough that crap now! :(There are a number of instances of people being cited/fined for unintentionally activating one of these things by FCC. To each his own, but *I* wouldn't touch 'em with a 10 foot pole!

While it IS true that there is massive corruption in the Bush Administration, I doubt that Charles Schlund knows any more about it than I do, or that Mr. Schlund is being subjected to "electronic torture". If W really wanted to silence Schlund, he'd simply throw him in prison, or cause him to "commit suicide". Remote control torture is a kook fantasy. Even in the high tech era, torture is done in person.

I wasn't talking about that SHIT HOLE GlenDale. I was talking about Taylorville which I don't even live close to and have never been there either. However, your such a dumbass that you can't do your research. Of course that crap hole GlenDale has few blacks. Unlike the slums of Tampa where you used to live in that bombed out Section 8 hole.

Of course, it shows that a toothless dumbass hick you really are Wussman. By the way, why did you move to GlenDale. Because mommy was going to give you a free meal?

By the way Weissman, you are Jewish aren't you and the fact that you have ran from that for years still upsets you.

Scheissman lies again as he burps his jizz all over the newsgroup. Christian county, Illinois has a total population of 35322. The city of Taylorville has approximately 12000. Sounds like that college education has been profitable for you Woger considering that you can't even do basic research.

Funny how you are a self loathing Jewish boy. Funny how you have gotten angry about people mentioning your Jewish background. It's funny how you have mentioned the same comments for years and it's all in the record. Just like when Kimball and Xemblionsky used to kick your ass in here.

Okay, that is a typical source I've seen. Now look at the specific
entries:

QTH My position is ... latitude, ... longitude (or according to
any other indication).

"My" Lat/Long.

QTF The position of your station according to the bearings taken
by the D/F stations which I control was ... latitude, ...
longitude (or other indication of position), class ...

"Your" Lat/Long.
Both *seem* pretty clear.

QRA The name of my vessel (or station) is ...

Other ham sites imply this denotes grid square coordinates
("locator")--okay, that is just variation in common usage.

QGE Your distance to my station (or to ...) is ... (distance
figures and units).

More "precise" geodetic (ellipsoidal) distance (for official
competitions, etc.)?

QRB The approximate distance between our stations is ... nautical
miles (or km).

Casual/informal spherical distance for general purposes?

QTE Your TRUE bearing from me is ... degrees at ... hours.
or

Your TRUE bearing from ... (call sign) was ... degrees
at ... hours.
or
The TRUE bearing of ... (call sign) from ... (call sign)
was ... degrees at ... hours.

Straight forward: "Your" azimuth/bearing to "me" (i.e., the "reverse
azimuth").
Or, is QTE for *both* the forward/obverse ("me" to "you") *and* reverse
azimuth?
If not,

QTI My TRUE track is ... degrees. [AP13]
QTI* My TRUE course is ... degrees. [AP14]

QTL* My TRUE heading is ... degrees.

which (if either) of these would denote the obverse azimuth?

My Post Form rec.radio.amateur.policy regarding the crackdown on anime sitesThe following is a post I wrote regarding the recent crackdown on Japanese anime / hentai sites and was posted on rec.radio.amateur.policy, Also upon writing this Onii-chan another site was shut down:

Let's make something clear Child porn is illegal, well actually child porn is Legal, according to US Supreme Court Some of it may be artistic

and therefore protected by the constitution. It the Processes on how it made that makes it illegal. In 1996 Congress passed the Child Pornography Prevention Act of 1996, which reinforced that that fact that the process on how child porn was created was illegal. But the law

also banned "virtual child porn" that including computer generated, art, sculptures, cartoons and other artificial means. The US Supreme Court struck it down because it banned material that was protected under the first amendment, and unlike REAL child porn no children were harmed in the creation of it. The government also argued that people could use this material to entice children and also could be used child

molesters to basic reinforce their behavior, but the court ruled that there was no evidence that such things happening as the court basically

stated a child molester or child rapist isn't going to be using "virtual" material, their going to be using the real stuff. For if there was this big market for virtual child porn or "fake child porn" then the real child porn market will disappear, if a safer alternative was there. Safer for both the child (since virtual child porn doesn't use real children, but using artificial means i.e.. computer, art, sculptures, and cartoons) and safer for the distributers because he wouldn't be in fear of his life getting caught by the government, since

child porn itself isn't illegal, only the process on how it's created is. So the Supreme Court struck down the CPPA, so Congress went back and passed the Child Obscenity Pornography Prevention Act (COPPA) COPPA

again banned virtual child porn, (the computer generated stuff) but this time it has be "indistinguishable" and the term "indistinguishable" used with respect to a depiction, means virtually indistinguishable, in that the depiction is such that an ordinary person viewing the depiction would conclude that the depiction

is of an actual minor engaged in sexually explicit conduct. This definition does not apply to depictions that are drawings, cartoons, sculptures, or paintings depicting minors or adults. The second part of

COPPA made it Illegal of have painting, sculptures, cartoons that depict children having sex and are consider to be Obscene. The Second part of COPPA isn't a child porn law, it's a Obscenity law. For something to be consider obscene it be the following

"(1) an average person, applying contemporary community standards, must find that the material, as a whole, appeals to the prurient interest (i.e., material having a tendency to excite lustful thoughts);

(2) the material must depict or describe, in a patently offensive way,

sexual conduct specifically defined by applicable law; and

(3) the material, taken as a whole, must lack serious literary, artistic, political, or scientific value

To be consider Obscene it must be ALL three of those things listed above and if it survive just one it's not obscene. The first two are to

be judge on a local or state level and the third is based on national level. In the State of Illinois it's not illegal to have cartoons (including the ones on my board) the State of Illinois only bans REAL child porn. As for Obscenity in the state of Illinois #1 and #2 of the Miller test in Illinois
applies to ADULT COMMUNITY STANDARDS, So obscenity in Illinois is a little more relax.
Secondly cartoons have been deemed by the courts to be an art form, since they are drawn by hand they are an art form and protected under the first amendment. Finally, last time I check (which was last week) a group has challenged COPPA in the courts and it will be a long time before a final judgment will be issued.

It's no lie.

You've admitted to your mental health confinement before.

Or was that just ANOTHER of YOUR lies, Mork?

You?

Raped?

The only circumstances wherein I could see a creep like you being raped by other men is if YOU were confined and they believed you to be a child molester yourself. I've seen you before...That is DEFINATELY the face that only a mother, gold digger, or green card seeking non-US citizen could "love"...Oh..and the blind...They can pretend you look like Frank Sinatra if they want to...Everyone else's imagination is spoiled by reality.

No...it's failed cases like YOU that give the mental health field a bad name.

What's a "Broard"...?!?! And I already know all the particulars of my "board", Morkie.

I think that was a sentence, but I am still working on figuring it out...

BILLY, DON'T BE A ZERO

Vocal: Bo Donaldson & The Heywoods

[Words and Music by Mitch Murray and Peter Robin Callander]

The gay pride band came down along Main Street
The Village People fell in behind
I looked across and there I saw Billy Smith
Waiting to go and join the line
And with her head upon his shoulder
Mary, his old and hideous she-male mommy
>From where I stood, I saw she was cryin'
And through her tears I heard her say

"Billy, don't be a zero, don't be a fool all your life"
"Billy, don't be a zero, you can go back to school at night"
And as he started to go she said "Billy, keep your your head back as
you blo-o-ow"
"Billy, don't be a zero, don't forget we can give 'em a two for one you
know"

The whining faggots were trapped in a alley
The gay orgy raging all around
Dick Sergeant cried "We've got to hang on, boys"
"We got to hold this piece a'ground"
"I need a volunteer to ride me"
"And bring us back some extra men"
And Billy Smith's hand was up in a moment
Forgettin' all the words she said

Everybody said
"Billy, don't be a zero, don't be a fool all your life"
"Billy, don't be a hero, you can go back to school at night"
And as he started to go she said "Billy, keep your head back as you
blo-o-ow"
"Billy, don't be a hero, don't forget we can give 'em a two for one you
know"

I heard his she-male mommy got a letter
That told how Billy swallowed that day
The letter said that he was a zero
She should be proud he swallowed that way
I heard she threw that letter away

[military drums and fifes to end]

Get to night school, Markie, you might be able to pass basic English
this time, if you lay off the Valiums and Bud 40-ouncers.

I ran into a person at a radio event recently. A non ham. He liked technical things and I thought he would enjoy getting into ham radio. I asked him "why not get a license, it's easier now. Some hams are experimenting in new methods of sending digital signals over radio and have a lot of fun experimenting."

He said years ago he thought about getting into ham radio and almost did, but at the time he was just too busy working, and time constraints meant it wouldn't have made sense for him to spend money on things he wouldn't get to use much.

Then he said, "I have time and money now to get into the hobby, but I won't because it sounds just like CB anymore."

After he said that, I felt like I was just punched in the guts.

you know ass whip this site http://no9glvoice.blogspot.com is in violation of copyright law, secondly you don't have a repeater because NO9GL is not a valid callsign, and I think I will drop the FCC a line and inform them that your pretending to be a licensee, not to mention claiming to play music over the air, which violates not on 97.113 but since your not a licensee it also violates Section 301 of the Communication Act of 1934. If they don't get you for that, they will get you for Idenity theft which is crime in the United States. At any rate you'll be going to jail for a long time.

OGL has not a legal foot upon which to stand. The burden of proof is upon Todd's shoulders and he will have to substantiate his accusations with verifiable facts garnered via subpoena.
Accusations, no matter how verifiable Todd claims them to be, MUST be backed up via legal standards that Todd is not likely to pursue.
So, Todd, the ball is in your court. Either hire an attorney to pursue your accusations and antagonists, or shut up and stop crying that someone is violating your copyrights.
Nobody is "going to jail for a long time", Todd. Or at least not any of your antagonists. If I were you, Todd, I'd be worried more about YOU going to jail for your kiddie porn. You have more to fear from law enforcement than your detractors.
If anybody is looking at going to jail, it is you.

Yes, Billy, your mommy told me as I fucked her.
(typical Roger response)

The only anal sex Roger has ever wanted was when Lloyd back-doored Roger in the fire escape stairwell during a Lavender Lad's concert in Wheeling.

Roger squealed in delight as Lloyd pushed Roger's sphincter to the breaking point.
Roger later wiped the sweat from his brow and said, "Damn! Lloyd, was that as good for you as it was for me?"

Woger has since been stalking Lloyd for a repeat performance and cannot wait for the next back stage Sphincter Invasion.
"After all", Roger says, "What are sphincters for if you cannot share?"

And now, as Paul Harvey says, you know the rest of the story.

Now you plagiarize? Too bad you can't even spell non sequitorcorrectly, though.

Er, Woger: It's spelled "non sequitur." Now what was that you were saying?

"It's "complaintant," you sniveling weasel." (Roger Wiseman on spelling complainant.)

Then why are you trying to hide the content?

But you can't, because anyone can look by knowing enough to use links
like

http://12.156.123.39/cpg135/albums/userpics/10001/normal_youjo05.jpg

to see one of the perverted drawings you are distributing to the world
- drawings which are in violation of current US Law and which ARE by
definition illegal.

I'd love to see you call attention to yourself, pervert, by
complaining about others.

Hey dumb-ass, Cartoons like that isn't child porn. The law only make it obscene. That why I "hide it" as you put it. When you join the board your agreeing to look at obscene material, Most of the people who join my board are anime and hentai fans and they know when they join what their getting into. That's who were catering to the Japanese anime/hentai fan. Child porn is two thing REAL CHILD PORN: in which REAL children are involved and Virtual Child porn (Computer Generated) Both of these are Illegal. paintings, Sculptures, cartoons and writings are NOT Child porn, they are consider Obscene. But even then there is a three prong test to determine wither they are obscene or not and they are:

the average person, applying contemporary community standards (not national standards, as some prior tests required), must find that the work, taken as a whole, appeals to the prurient interest;

the work depicts or describes, in a patently offensive way, sexual conduct specifically defined by applicable state law;

and the work, taken as a whole, lacks serious literary, artistic, political, or scientific value.

(Miller V California US Supreme Court 1973)

To be obscene they must be all three of the three prong test, if it survives just one it not obscene, obscenity cases are very hard and very rare. In Illinois the first two must be based on the community standards of an ADULTs (not children). The must be patently offensive to ADULTS (not children). The third one is based on a national standard, and the federal courts has ruled in the past that cartoons like those on my board is ART, and therefore is artistic. In the State of Illinois Obscenity Laws are pretty relaxed compared to other states. In Illinois really when it comes to porn is that it can't be near schools or parks, apart from that it's legal here. But whatever.

The US authorities are forcing boards like yours off the net,
according to your own blog. Doesn't that get through your thick

And don't post some long-winded response every time you get caught

Another UPDATE ON ANIME SITES
It has now come to my attention that those Lolicon Sites that were shut down had been shut down indirectly by the United States Government. Their webmasters feared the government coming after them and threatened the sites owners to remove content from the site. One site is still on, they only removed the content and the second site is planning to find a server overseas. But Hentai / lolicon sites weren't the only ones shut down www.nowthatsfuckedup.com was also threaten by the government. this NON-Lolicon site was a site were people post pictures of their girlfriend and boyfriends. The US government and their new ANTI-PORN squad is going after ALL forms of pornography and what it deems to be Obscene Speech. recently the ACLU petition the state of florida who has in man in jail for violating the state's obscenity laws, although the server was hosted in Europe. The site had not only pornography but it also had pictures from the war in Iraq.

The FCc can make any ham initially tested under the VE program retest,
you fucking idiot. It's posted in the FCC Enforcement Log every time
it's on the ARRL webpage.
What you are doing is lying, since the letter mentioned no reason save
for the FCC's perogative to retest. You can't even pass the General
test the first time and are waiting around for them to dumb it down to
accomodate you since you are too stupid and lazy to pass the test under

What is even DUMBER is a ham you can't pass the General or the 5 wpm
Code test after over 12 years of trying like you have, Davies. And you
want the FCC to accomodate you by lowering the standards of the test so
you can finally pass them.

But he's *not* on the public airwaves, so the FCC has no jursidiction.

I really dont think you supplied enough information.

Was the person saying that he has heard (ie listened to an RX) or that
he has heard (anecdotal evidence) that AR seems to be CB?

If the first case I guess you could use that as proof of
licensing/examination inadequecies. If the second this is a
misconception on the part of how AR is presented in the media or by just
general perception. ie if the public knows little about radio then it
can only be a "play thing" or "commercial" and both CB and AR get
incorporated into the former.

I'll repeat to the point of causing nausea though that the examination
doesnt (to my knowledge) tell you how to act/talk etc on the radio. It
is more interested in proving technical and legislation competence and
assumes your "common sense" will prevail. How the person talks/acts is
in a sense the responsibility of the others of the "club". Do you really
think that by keeping the techical competency high you will keep the
"riff-raff" out? I dont.

I hope you suggested to the person that things are not all that bad and
he could still have an enjoyable time experimenting. Just like the rest
of society you can choose who you interact/talk with.

eveendce to form a throery preahps but still this does not seperate the
effect of the fact that society itself is changing.

that the exams are responible is ONE of several possible explainations

Err well, VK has just had the foundation license start up. I'll admit though that I havent been paying attention as my sphere of interest rarely has me talking on more "popular" places like HF and FM rptrs. I am also living in East Texas!

I do remember some 2m FM rptr stupidities in Sydney maybe 10-15 years ago. It went on for quite a while and I think made a lot of amateurs give up on that mode. I personally think simplex whilst mobile (SSB on 2 & 6) was much more rewarding anyway.

There is certainly a lot of irritating and generally useless behaviour in AR newsgroups but I have only actually heard one (obnoxious) person on HF that kept me VFO'ing since I arrived in the US. I therefore havent really heard any problems first hand. I just wander along experimenting on what interests me and dont seem to be affected.. Perhaps the unsavories tend to congregate where I am not!

PROTECT - Public Law 108-21 is currently the law of the land. Maybe it will be overturned one day, but until that day you are committing a felony by putting up images which depict children having sex.

That's why the lolicon boards are being shut down. You have said it yourself on your blog. Your own board is not one bit different than those which have already been forced off the net.

I have a feeling that it's only a matter of time until you are contacted by law enforcement.

The PROTECT ACT is currently being challeged in the court. The part of the PROTECT ACT your refereing to is the Child Obscenity Pornography Prevention Act or COPPA (aka CPPA version III) which makes it illegal not only to have real child pornography but virtual child pornography (i.e. computer generated) as well. (although the Supreme Court ruled twice once in 2002 and again 2004 that virtual child pornography was protected under the First Amendment)
After the Supreme Court made it ruling the US Congress passed the Protect Act, the problem with it, in regards to virtual child porn is that the law was pretty much the same law the Supreme Court struck down, as a matter of fact the group that challeged the CPPA wrote Congress a letter and informed them that the Protect Act was under the Supreme Court ruling also unconstitutional. The ACLU Also wrote congress along with a number of laywers making the same statement that the Child Obscenity Pornography Prevention Act (which is part of the PROTECT ACT) WAS under the SUPREME COURT RULING UNCONSTITUTIONAL.
The first part of the COPPA deals with the banning of virtual porn (Computer Generated) as I stated above. The second part of that law makes any sculpture, painting, drawing, cartoon or writing that depict children having sex to be OBSCENE, AND NOT CHILD PORN. Because as the Supreme Court stated drawings, paintings, cartoons and writings come from someone's imagination. "Real Child Porn in in itself is NOT ILLEGAL, It is the Process on how it's created that makes it illegal. The process in which child porn is created is by the harming and sexual abuse of REAL children and since no children are harmed in the creating of virtual child porn it doesn't fall under the scope in Ferber nor does it fall with scope of Miller". (Ferber V New York US Supreme Court 1982); (Ashcroft v Free Speech Coliltion US Supreme Court 2002) So Since no real children were harmed in the creating of those cartoons on my web site then they are NOT Child Porn, and for it to be deemed Obscene under the PROTECT ACT then it must be all three of the three prong test of Miller (Miller V California US Supreme Court 1973) and it must be ALL THREE of the THREE PRONG TEST to be consider obscene.

SO Lloyd keep crying about it on here, because NOTHING is going to happen.....BTW YOU SHOULD REALLY READ THE UPDATE ON MY BLOG ABOUT THIS ISSUE.

Off to put more pictures on my site :)

Hi Folks:
For a while now I've been hearing images of the transitions of CW practice on 3.58 on about 3.575. These are also slightly heard on 7.150! Is this on my end? I only hear this on W1AW, but someone there at W1AW said it sounds fine to him. Anyone else hearing this?
Thanks!

That is your downfall, Wussyman. Since you are the epitome of Plagiarists
you assume that others are, too.
Are you still posting the cut-and-paste (plagiarism) comments made by your
one and only like-minded malcontent, Les Locklear?
At least Les doesn't scatter his posts with incorrectly spelled words. You
could learn from him if you were not so close-minded.

BTW, you little munchkin. I am NOT Lloyd, I am NOT Billy, I am NOT Stagger

Woger went off the deep end years ago. His current posts are nothing new. You would have to understand Woger to know how his mind misfires. He hears voices.

Woger is, to begin with, a Bastard. No, not a Bastard in the name-calling sense, but a Bastard in that he was put up for adoption in his early years. There is some doubt that Woger even knows who the sperm donor was.

Woger went on to marry a poor, unsuspecting woman who must have had an I.Q. that registered at the freezing point. His marriage failed and the poor gal gave Woger his walking papers. Woger had to leave Florida with his tail between his legs.

Wogie also claims to be an Air Force veteran, though there are no records to substantiate that claim and the Air Force records show no person by this name on their rolls.

Woger also claims that he bought the house he now lives in, despite old records that indicate that his adoptive mother, Marie, was the only owner of record prior to her demise. Those records are no longer available because Woger raised a stink about it and demanded they be removed from public scrutiny.

Woger is now the sole owner of record for his inherited, $33,000 home and there are tax records still available for on- line scrutiny. Or at least there were. Perhaps Woger went to the Recorder's office to have them removed once again.

And there is little doubt that Woger is well known with the local law enforcement officers. They have been to his home on more than one occasion and when Woger was called to the Chief's office some years ago for questioning, Woger had some sort of a cardiac problem that caused the Chief to call the medics. As Woger was being carted off in the ambulance the Chief said, "I thought we were going to lose him."

It is no secret that Woger is a rather short man. He stands all of five feet and four inches tall in high heels. He likewise has a complexion problem even at fifty years of age.

It is also no secret that Woger has been under the care of a Psychiatrist and has prescription medications that he is supposed to take daily. Woger suffers from paranoia and other mental disorders and one can see this very easily. Just look at the photos of his house. Who, in his/her right mind, would keep the curtains and shades pulled down 24/7? Not just one or two shades, but ALL of them.

Woger is clearly afraid of something or somebody. Or, maybe it is the psychoactive meds he takes.maybe the drugs make his eyes sensitive to daylight.

Most likely, though, Woger keeps the blinds drawn because he lives in fear of the outside world. He is only brave behind his keyboard.

Never mind.

Maybe you're right. American Idol contains secret messages that only he

"Hello..."

I guess you missed out on the ARRL's campaign to bring more amateurs on
board.

> I was a member for many many years, but I dumped them nine years ago when

I always thought the code was doing enough to dumb down the service.

In the April 2006 editorial by David Sumner, K1ZZ, David introduces the
concept of "Hello."

And in the 8th paragraph, he validates something I've said and have been blasted for again and again. I've said that you almost have to know a ham to become a ham. And I've said it again and again and again despite the attacks from the Extra-Elite that storm the halls of RRAP.

Here are David's exact words:

"The best place to start is with the people closest to you. Most of us were introduced to Amateur Radio by friends and family, or by someone once removed - the friend of a friend. Oh, we might have read a book or seen an article or some television coverage about Amateur Radio, but it took the personal touch to turn that glimmer of interest into a passion. It took someone's helping hand to guide us through the maze of unfamiliar terms, baffling regulations and arcane procedures. Now it's our turn."

Now David Sumner, K1ZZ, speaking for the ARRL in QST magazine validates what I've said and have been attacked for saying.

Did David say, "Most of us were introduced to Amateur Radio by friends and family, or by someone once removed - the friend of a friend???" Yes, he did.

Did David say "baffling regulations???" Yes, he did.

Well, I didn't need David's validation. I knew I was speaking the truth all along.

This is funny, coming right on the heels of the FCC validating what they think the true worth of the ARS.

I've started a Online Amateur Radio Encyclopedia so that amateur's and non-amateurs can look up facts and information regarding amateur radio, technology and electronics. I'm using Wiki which is the same program Wikipedia online encyclopedia is using and I hope amateur's will help by adding their knowledge to this free online reference system so both amateur and non-amateur's can use it as a valuable tool.

3D2, FIJI ISLANDS. Brian, N6IZ, is now active as 3D2IZ on the Island of
Namotu (OC-121) until April 1st. Namotu is a small island in the Mamuca
Island chain in the Fijian waters. Reports from Bonnie, KQ6XA, indicate
Brian is using ALE (Automatic Link Establishment) on 20 meters. Brian
will try "HFL" Netcalls using a portable HF system (IC-706+PCALE+laptop)
```

manual tuned antenna on the HFLINK channels. ALE monitor freq: 14109.5 kHz (no auto RX scanning). Also, he is active on 14342.5 kHz and 18157.5 kHz. When not playing on ALE, look for him on 80-10 meters CW/SSB and the digital modes. QSL via N6IZ. More information on his operating schedule is available at: http://www.brianboschma.com/fiji/Fiji2006_operation.htm

9M6, EAST MALAYSIA. Operators Peter/DJ8XW and Heinz/DL2QT are currently operating from 9M6AAC at the Hillview Gardens Resort in East Malaysia. Bob, N2OO, reports to "Please QSL via N2OO. They have announced QSL via DL2QT which is incorrect, however, they will answer whatever cards do go via that route if they have already been sent there. N2OO is the permanent QSL Manager for all operations from 9M6AAC over the past 10 years. To all QSL Manager databases, please do not change your QSL Manager listings. Sorry for the confusion. QSL 9M6AAC via N2OO."

9Q, DEMOCRATIC REPUBLIC OF CONGO. Luc, ON7KEC, will be active as 9Q/ON7KEC during a business trip in early April through late July. Activity will be limited to his spare time. QSL via his home callsign.

CQ MAGAZINE DX MARATHON WEB SITE. John, K9EL, reports: "The CQ DX Marathon is a cross between an award and a contest. It runs for a full year at a time with competitors trying to contact as many countries and CQ zones as possible within the year. There are no carryovers from year to year, however, and everyone starts fresh each New Year's Day. The year-long DXing competition began on January 1. A new Web site has been established and dedicated to the DX Marathon - http://www.dxmarathon.com
Please check it out and let us know what you would like to see on the web site. We will publish your stories and your accomplishments. Send us your score to date and we publish it. You will also find the complete CQ Countries list in various formats..... Good luck!"

EI90, IRELAND (Special Event). Members of the South Dublin Radio Club (SDR) will activate a special event station over the Easter weekend (April 16-17th) to commemorate the 90th anniversary of the 1916 Easter Rising. "The Easter Rising was a militarily unsuccessful rebellion staged in Ireland against British rule on Easter Monday in April 1916. Nevertheless, despite its military failure, it can be judged as being a significant stepping-stone in the eventual creation of the Irish Republic", from the Wikipedia Web page at: http://en.wikipedia.org/wiki/Easter_Rising
The special event station will run from the SDR club QTH using the callsign EI90GPO. Activity will be on all HF bands from 80-10 meters. QSL via EI2SDR.

FS, SAINT MARTIN. John, K9EL, will be active as FS/K9EL from April 3-11th. He informs OPDX that he will be using an IC-735 barefoot and vertical antennas for 80-10 meters. No PSK or RTTY. QSL to his home callsign.

HA, HUNGARY (6M BAND). As of March 29th, 2006, HA amateurs can start using the 50-52 MHz band on a secondary, non-interference basis as a new frequency allocation plan has appeared in the official journal of the Republic of Hungary. The same government order also opens the 7100-7200 kHz segment of the 40m amateur radio band for Hungarian radio amateurs.
On 6m, the frequency allocation for amateur radio is 50-52MHz, with a

power limit of 10W ERP. All known modes occupying less than 12 kHz bandwidth are allowed. There are no restrictions on the design or polarity of antennas, but the 10W ERP limit has to be obeyed. As the amateur radio band is now contained in the National Frequency Allocation Plan, no separate licences are required, all stations holding a CEPT-equivalent licence are automatically granted access. No mobile operation on 6m is allowed however. The two television transmitters in Hungary remain operational in the band for the time being.
Early access to the 7100-7200 kHz segment of the 40m amateur radio band is also granted for those holding CEPT-equivalent licences, with 150W or 250W of power depending upon the licence class. As this band is under 30 MHz, a CW proficiency exam is still necessary. Hungary is expecting new amateur radio regulations within a few months that will revise - among other things - the Morse requirement and the national licence/exam classes.

NA-026. (CORRECTION) In last week's OPDX.752, we stated that Staten Island (USI NY-004S, Richmond County, New York) is NA-026. OPDX was informed that Staten Island was removed from IOTA NA-026 on February 1, 2005. It is still good for the USI Award.

NA-031. (Update) John, NY6DX, will be operating as NY6DX/1 from Block Island (USI RI-001S - NOT A NEW ONE as first announced, Washington County, Rhode Island), from April 11-14th. Look for activity on, or near the usual IOTA frequencies. QSL via his home callsign, direct only (QRZ.com).

NA-081. Dana, VE1VOX, will be active as VE1OTA April 14-16th. He will decide which islands to operate from upon his arrival to the area. Activity will be on 15, 20, and possibly 40 meters SSB. QSL to VE1VOX, direct preferred. Reminder, international postage requires an IRC or 2 USDs.

J6, ST. LUCIA (Update). Oleh, KD7WPJ/UR5BCP, informs OPDX that he is planning to operate from here (NA-108) from March 30th through April 5th. Activity will be on 160-6 meters CW/SSB. His visitor's radio amateur licence has been approved and most likely he will use the callsign J6/KD7WPJ. QSL via KD7WPJ.

JD1, OGASAWARA. A German team consisting of Walt/DJ0FX (JS6QFP), Joe/DL2DX (JA1PPB), and YL Karin/DL9DYL are expected to be active between April 4-18th. The group is trying to obtain JD1 callsign and currently does not know their callsigns. Activity will be on all bands on CW, SSB, PSK31 and RTTY. QSL via their home callsigns.

Activity is to commemorate 80th anniversary of the first radio amateur club in Bulgaria. QSL preferably via the LZ QSL Bureau to LZ1BJ.

OK7, CZECH REPUBLIC. Petr, OK1DOT, informs OPDX that he will be using a new callsign for special occasions such as contests. Look for him to use OK7DX in upcoming contest.

ON-OT, BELGIUM. Reports indicate that individual Belgian amateurs can now apply for a secondary 2x1 vanity callsign with all possible ITU prefixes for Belgium. However, the prefixes OT5x and OR5x are reserved for club stations. It is quite possible that callsigns like ON1A, OP2Q, OS7Z, OO0O .... etc may/will show up on the bands. The primary focus for this change is contesting but also applicable to every day DXing. So don't be confused or think they are pirates, these callsigns are 100% legal. They fall under CEPT agreement.

The ARRL Letter announced this week: "Users of the ARRL's Logbook of the World (LoTW) <http://www.arrl.org/lotw/> now may apply their LoTW credits to applications for the League's Worked All States (WAS) award. Once registered and logged in, users may set up a WAS account on the Logbook Awards page, configuring the account to automatically select QSLs to use or selecting them manually via the Your QSOs page. LoTW is a repository of logbook records submitted by users from around the world. When both participants in a contact submit matching QSO records to LoTW, the result is an electronic "QSL" that can be used for award credit. As part of this addition, administration and maintenance of all WAS awards is now perfomed using an LoTW module. US Amateur Radio licensees must be ARRL members to apply for the WAS award. In addition to WAS, LoTW supports the ARRL DX Century Club (DXCC) award. Since its inauguration in September 2005, LoTW has more than 95 million QSO records on file, with nearly 5.15 million QSL records resulting. The system boasts just over 12,000 registered users, and there are more than 18,100 certificates--each representing a particular user call sign--on file."

Is the "State of Main" a new state? I think I missed that in the news.

What house, fatty? All you have is a filthy HUD section 8 apartment in
the ghettos of Athens, AL.

In those days there were those who continued to laugh their asses off
at the king of knob jobs in alabama as Lloydie has come to be known.
There were also those who instigated and spread rumors for the king of
knob jobs in alabama to cover the truth.

And there were others who had actual pictures of the king of knob jobs
in alabama laying down with other men. When Lloydie aka: the king of
knob jobs in alabama saw these, he consulted with the niggers and
crackheads that surrounded his hud apartment and all were belly
laughing at the fact that this obese, mentally retarded dork would
stalk Roger acrosss the face of the cyberworld and spread vicious lies
about him.

But in the end it was known that a strong odor eminated from the king
of knob jobs in alabama and much strong lye soap was necessary to
cleanse his filthy body and hud apartment of the stench. So, the order
was given by the city of athens sanitation department to fumigate his
filthy, roach infested hud hovel.

When the fumigation was complete, cockroaches were scurrying into the
streets and lawns of athens like never before. Now, when a light was
turned on, those who had seen Lloydie's hovel before were amazed at the
mounds of dead roaches, rats. The stench of shitty underwear was
overpowering, so much so the sanitation workers had to wear gas masks.

When the sanitation workers got to stepping to escape the roaches and
rats, the king of knob jobs in alabama lay in wait in ambush for the
sanitation workers in their path to return to their vehicles. Then the
king of knob jobs in alabama leaped forward and stood in their path.
The king of knob jobs in alabama had been licking his thick blubbery

lips in anticipation of sucking these black sanitation workers off to satisify his perverse sexual desires. They laughed at the obese retarded one, who they always laughed at behind his back. They brushed him aside as he fell to his knees and begged them to let him suck their big black nigger dicks. Lloydie knew that they knew that all escape routes were blocked and he was in deep shit. As the king listened to their guffaws and mocking him, he sharpened his pizza cutter, for the king of knob jobs in alabama is nothing more than a pizza delivery boy.

The king of knob jobs in alabama finished sharpening his pizza cutter and looked at the niggers and crackheads laughing their asses off and pointing at him in mockery.

Then Lloydie heard, DAMMIT, Lloyd, you have pizzas to deliver, are you napping and daydreaming on the job again, and there was much scurrying about to complete his given tasks.

the ghettos of Athens, AL.

In those days there were those who continued to laugh their asses off

There were also those who instigated and <snip Roger's plagiarism of Les

I was saddened to hear of the sudden death of Paul Flaherty, N9FZX, of a heart attack. He was only 42.

Paul was a early, and long-time, participant on the newsgroups, including rec.radio.amateur.*. I participated in a discussion thread with him on ba.broadcast just a few months ago.

A PhD graduate in Electrical Engineering at Stanford University, Paul was a past president of the Stanford University Amateur Radio Club (W6YX).

Paul was best known as a co-creator of AltaVista, one of the earliest web search engines, while at the Digital Corporation.

At the time of his death, he was Product/Strategy Vice President at Talk Plus.

My, that's quite a fag fit you are having. Must mean what was said
about you posting the shemale pics are true. Of course it is, since
your ip numbers were outed as the one posting them.

You just posted to NIM at 4:38am EST to advertise your "blog." The proof is at

http://the-forum.us/nimbusters/forum/read.php?board=8&id=98715

Now anyone who might have doubted it knows that you are a liar, just as Mark has been saying all along.

Oh, and that's a crude Icelandic blog you put up on blogspot. Real Icelanders will be offended, and they will get in touch with the Taylorville Icelanders Club. The club president will in turn contact your parents.

You'll probably be locked in your parents' basement for a month.
---(end quote)---

So there you go; click on the link immediately above and you can still read the NIM Busters post that you made last February.

Hello and thanks for reading. I have the kenwood twins R599S - T599S
but miss the interconnecting cable between the Rx and the Tx. From what
I understand from my tests the T599 remote pinout is different from the
R599 pinout. I checked in the manuals but did find only the Tx pinout.
Can anybody in the group help me providing any useful info about or,
have the original cable and wants to sell it ? Thanks and best wishes

K1MAN BULLETIN - B060329A -

FCC ISSUES A "FORFEITURE ORDER" AGAINST K1MAN

The "Order" is attached below. What Now?

1. The FCC has declined to provide a requested hearing, and the Fifth Amendment to the United States Constitution requires a hearing and due process of law before they can collect a dime much less the "ORDERED" "fine" of $21,000. Even a traffic ticket gets a hearing, right?

2. Therefore, the next step for the FCC, by statute, is to now sue K1MAN for the claimed $21,000 in Federal District Court in Bangor, Maine where K1MAN would demand a trial by jury (trial de novo), subpoena witnesses (Hollingsworth, Boston Office Engineers, hams, etc.), file motions, etc. The FCC can't even bring such a suit, of course, because the minimum claim in Federal District Court is $50,000.

3. By statute, unresolved forfeiture matters such as above cannot be used in any other FCC proceeding such as K1MAN's pending renewal application.

4. By statute, K1MAN can and will continue to operate until the renewal application is finally decided including all appeals to the D.C. Court of Appeals and the U.S. Supreme Court.

Bottom line is that the FCC is blowing phony legal smoke leading to Hollingsworth's 2006 Dayton "Special Achievement Award" which is not too bad for a guy who was sick on the day they taught law at law school. Wake Forest Law School should refund all of his hard earned money! Good luck in the contest!

FORFEITURE ORDER

Adopted: March 27, 2006 Released: March 29, 2006

By the Regional Director, Northeast Region, Enforcement Bureau:

I. INTRODUCTION

In this Forfeiture Order ("Order"), we issue a monetary forfeiture in the amount of twenty-one thousand dollars ($21,000) to Glenn A. Baxter ("Baxter"), licensee of Amateur Radio Station K1MAN, for willful and repeated violation of Sections 97.101(d) and 97.113(a)(3) of the Commission's Rules ("Rules"), for willful violation of Section 97.105(a) and 97.113(b) of the Rules, and for willful and repeated failure to file required information pursuant to an Enforcement Bureau ("Bureau") directive. The noted violations of the Rules involve interference with the ongoing communications of other Amateur radio stations, failure to exercise station control, transmission of communications in which Baxter had a pecuniary interest, and transmission of communications that constituted impermissible broadcasting.

II. BACKGROUND

In response to numerous complaints of deliberate interference caused by transmissions from Baxter's Amateur Radio Station K1MAN to ongoing radio communications of other amateur stations, the Bureau issued Warning Notices to Baxter on September 15, 2004 and October 29, 2004. Agents in the Commission's Boston Field Office ("Boston Office") subsequently conducted an investigation, including monitoring and inspecting Baxter's station and, as a result of the investigation, the Boston Office issued a Notice of Apparent Liability to Baxter on June 7, 2005, in the amount of twenty-one thousand dollars ($21,000).

In the NAL, the Boston Office found that Baxter apparently willfully and repeatedly violated Section 97.101(d) of the Rules, which states that "[n]o amateur operator shall willfully or maliciously interfere with or cause interference to any radio communication or signal." FCC agents observed Baxter's Amateur Radio Station K1MAN commence transmissions on top of existing communications on 3.890 MHz on November 27, 2004, December 8, 2004, and March 31, 2005.

The Boston Office further observed that Baxter apparently willfully and repeatedly violated Section 97.113(a)(3) of the Rules by transmitting, on November 25, 2004, and March 30, 2005, information regarding his website, which offers various products for sale, including a monthly newsletter published by Baxter and offered for sale for forty-five dollars per year. In addition, on December 1, 2004, Baxter transmitted a seventy-minute interview with a person who was considering whether to retain Baxter Associates, an employment-search firm owned by Baxter. During the transmission, Baxter discussed fees for his franchises, investments, and franchising opportunities. Section 97.113(a)(3) of the Rules prohibits an Amateur station from transmitting any communications in which the station licensee or control operator has a pecuniary interest.

The Boston Office also concluded that Baxter apparently willfully and repeatedly violated Section 308(b) of the Communications Act of 1934, as amended, which provides that the Commission "during the term of any. . .licenses, may require from...a licensee further written statements of fact to enable it to determine whether such original application should be granted or denied or such license revoked . . . ." Baxter was directed in Warning Notices dated September 15 and October 29, 2004, to provide information regarding how station K1MAN was controlled and the identity of the control operator. The Boston Office found that Mr. Baxter's statements that "[n]o corrective actions are necessary" and "[n]o changes are needed with regard to station control" failed to comply with the Bureau's demand for station information.

Baxter also was found to have apparently willfully violated Section 97.113(b) of the Rules, which prohibits, with limited exceptions not applicable in this case, an Amateur station from engaging in any form of broadcasting or transmission of one-way communications. The Boston Office concluded that the pre-recorded seventy-minute interview with a person interested in retaining Baxter Associates, during which there was no station identification, constituted a "broadcast" and an impermissible one-way transmission.

The Boston Office further concluded that Baxter apparently willfully failed to exercise control over his station, as required under Section 97.105(a) of the Rules. On December 19, 2004, station K1MAN repeated the same pre-recorded phrase, and segments thereof, for 45 minutes on 3.975 MHz after which the transmissions ended abruptly in mid-sentence without the station identification required by the Rules.

Baxter submitted a reply on June 16, 2005 denying any liability for the forfeiture amount. Citing the Fifth and Sixth amendments to the United

States Constitution, Baxter requests "all documentation regarding the alleged apparent liability and. . .a trial like hearing before the full Commission." Baxter notes that, although he previously has received three Notices of Apparent Liability, he has not been able to appeal those to the full Commission and therefore repeatedly has been denied access to "the Washington D.C. Court of Appeals in the pursuit of due process of law as guaranteed by the United States Constitution." Baxter does not submit any substantive responses to the apparent violations set forth in the NAL.

On July 18, 2005, REC Networks ("REC"), through its principal Rich Eyre, filed a Petition for Leave to File Amicus Pleading and an associated Motion for Partial Reconsideration or Declaratory Ruling. REC is concerned that the findings in the NAL regarding Baxter's apparent liability for violating Section 97.113(a)(3) of the Rules by transmitting references to his website could subject many amateur radio licensees to similar enforcement action merely for uttering a website address on their stations.

III. DISCUSSION

The forfeiture amount proposed in this case was assessed in accordance with Section 503(b) of the Communications Act of 1934, as amended ("Act"), Section 1.80 of the Rules, and the Commission's Forfeiture Policy Statement and Amendment of Section 1.80 of the Rules to Incorporate the Forfeiture Guidelines. In assessing forfeitures, Section 503(b)(2)(D) of the Act requires that we take into account the nature, circumstances, extent and gravity of the violation and, with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require.

We decline to grant Baxter's request for a hearing. Section 503(b)(3)(A) of the Act states that "[a]t the discretion of the Commission, a forfeiture penalty may be determined against a person .. after notice and an opportunity for a hearing before the Commission or an administrative law judge...." Section 1.80(g) of the Rules states that procedures for hearings "will ordinarily be followed only when a hearing is being held for some reason other than the assessment of a forfeiture...." Accordingly, the "reference to a notice of opportunity for hearing mentioned in Section 1.80(g) of the Commission's Rules is a discretionary provision available to the Commission that is not normally utilized when only monetary forfeiture matters are involved." The Rule also states, however, that "these [hearing] procedures may be followed whenever the Commission, in its discretion, determines that they will better serve the ends of justice."

Baxter has not shown that there is any reason for us to follow anything but our ordinary procedures for monetary forfeitures or that a hearing "will better serve the ends of justice." Baxter received notice regarding the legal and factual bases for the apparent violations and proposed forfeiture and has been afforded an opportunity to respond

"why no such forfeiture penalty should be imposed." Although Baxter categorically claims no liability for the forfeiture, he has chosen not to present any specific exculpatory arguments or evidence in response to the violations set forth in the NAL. A licensee's decision to forego the opportunity to present exculpatory arguments and evidence in response to a NAL does not create a right to a hearing and, accordingly, we conclude that an evidentiary hearing is not required in this case.

We have examined Baxter's response to the NAL pursuant to the statutory factors above and in conjunction with the Policy Statement. As a result of our review, and based on the record before us, we conclude that Baxter willfully and repeatedly interfered with ongoing communications of other stations in violation of Section 97.101(d) of the Rules. We further conclude that Baxter willfully and repeatedly transmitted communications in which he had a pecuniary interest in violation of Section 97.113(a)(3) of the Rules. We find that Baxter willfully and repeatedly failed to file requested information pursuant to a Bureau directive. We further find that Baxter willfully engaged in broadcasting in violation of 97.113(b) of the Rules and willfully failed to exercise control of his station in violation of Section 97.105(a) of the Rules. Considering the entire record and the factors listed above, we find that neither reduction nor cancellation of the proposed $21,000 forfeiture is warranted.

Finally, we deny REC's Petition for Leave to File Amicus Pleading because we find no basis for consideration of the associated petition, either as a petition for reconsideration or as a petition for declaratory ruling. Although REC recognizes that it does not have standing to file pleadings in this proceeding, REC requests that we accept its Petition because it believes the findings in the NAL regarding references to websites on amateur radio stations may impact other amateur licensees. As a petition for reconsideration, REC's pleading is premature. A Notice of Apparent Liability is not a "final Commission action," which is a predicate for filing a petition for reconsideration under Section 1.106 of the Rules. Therefore, as a petition for reconsideration, REC's pleading will be dismissed with prejudice. In the alternative, REC requests that we treat the pleading as a petition for declaratory ruling. Because the petition seeks an interpretation of the Commission's Amateur Radio Service rules as they relate to website references on amateur radio stations, it is more appropriately addressed by the Wireless Telecommunications Bureau, which is the Bureau responsible for implementing rules and policies with regard to the Amateur Radio Service. Accordingly, the petition for declaratory ruling will be dismissed without prejudice and may be re-filed with the Office of the Secretary in accordance with the procedures set forth in Part 1 of the Rules.

We take this opportunity to note, however, that the violation for which Baxter is being assessed a forfeiture is not the mere mention of a website. Baxter violated Section 97.113(a)(3) of the Rules because he

has a direct pecuniary interest in the products offered for sale on the website about which he provided information on his amateur radio station.

IV. ORDERING CLAUSES

Accordingly, IT IS ORDERED that, pursuant to Section 503(b) of the Communications Act of 1934, as amended, and Sections 0.111, 0.311 and 1.80(f)4) of the Rules, Glenn A. Baxter IS LIABLE FOR A MONETARY FORFEITURE in the amount of twenty-one thousand dollars ($21,000) for willfully and repeatedly failing to furnish information requested by the Bureau, willful and repeated violation of Sections 97.101(d)and 97.113(a)(3) of the Rules, and willful violation of Sections 97.105(a) and 97.113(b) of the Rules.

IT IS FURTHER ORDERED that REC Network's Petition for Leave to File Amicus Pleading IS DENIED and REC Network's Petition for Partial Reconsideration or Declaratory Ruling is in part DISMISSED WITH PREJUDICE and in part DISMISSED WITHOUT PREJUDICE as set forth herein.

Payment of the forfeiture shall be made in the manner provided for in Section 1.80 of the Rules within thirty (30) days of the release of this Order. If the forfeiture is not paid within the period specified, that case may be referred to the Department of Justice for collection pursuant to Section 504(a) of the Act. Payment of the forfeiture must be made by check or similar instrument, payable to the order of the Federal Communications Commission. The payment must include the NAL/Acct. No. and FRN No. referenced above. Payment by check or money order may be mailed to Federal Communications Commission, P.O. Box 358340, Pittsburgh, PA 15251-8340. Ok, here's a question, Was K1MAN's transmissions directed to the general public, or were they directed to the Amateur Radio Service? You see for it to be consider a "broadcast" the transmission must be directed to the general public. If it's directed to the general public then it's Illegal, BUT, if it directed to the amateur radio community and consists of material of interest to the amateur radio service, then it's legal. One of the problems I have with amateur operators over this thing is that amateur believe that the content that is directed to the amateur radio service must be the same type of format as the ARRL bulletin. (a newscast) yet there is nothing in the rules or regulation that states that, nor is there a FCC order that states that either. It up to the station on how they want to disseminate the information. Section 326 of the Communication Act prohibits the FCC from "controlling the content of ANY radio station" So I would really like to know where it states it has to be a certain format. The next thing is Amateur's have to realize that one, 47CFR 97.3 (a)(25) and 47 CFR 97.111(b)(6) is here to pretty much to stay the last time some one tried to change them and was denied the FCC said they would not hear on the matter any more, Secondly, those two rules is not just for the ARRL, anyone may operate a information bulletin, just like anyone can run a beacon. As the FCC stated in their April of 2004 letter to Baxter and is also on their website "there is no time limit on information bulletins." So there is some real questions regard Baxter and the FCC.
1. was it directed to the general public or to the amateurs?
2. was this enforcement "content neutral"? (the FCC under the law is to make content neutral dissensions in regards to making rules and enforcement action.)
3. Should the FCC clarify the rules a little better?

the FCC & Hollingsworth are cowards, who will never

The "broadcasting" charge is but one of the issues and I think the NAL makes it fairly clear why Baxter's activities are not allowed while ARRL transmissions are. However, it doesn't matter that much because they are further charging him with not answering their technical questions about station control and who was the control operator during the observed violations and other things. Any one of these charges is enough for them to collect on the NAL and deny his renewal application. This argument is a straw man which the FCC has now clearly dismissed.

Do some rules need to be clarified? Perhaps. The FCC did recommend that REC re-file and use the proper procedure to get a clarification of the rules in this regard. I think I understand what the rules mean, and how the ARRL (and others) can do what they do and why Baxter's activites, as described in the NAL, is in violaton of the rules. If you don't see the differance, please ask the FCC to clarify, but it seems clear to me.

As to Baxter's claim that they cannot deny his pending application... I wouldn't bet on it. As I see it, these charges are now "confirmed" and from the FCC's perspective no longer pending. The wheels of the FCC may turn slowly, but they *do* turn. This would lead me to believe that the denial of his pending renewal application which is under review will be forthcomming. As I see it, the only question is how long will it take for them to collect the $21k.

Once they deny his pending application, and they will, things will get very interesting indeed. K1MAN will have no authority to operate and you can bet the FCC will be ready to deal with him if he does. Again, it may take awhile, but don't be fooled into thinking they won't act. Should he insist, I'm sure they will eventually pry the microphone out of his hands as they slip on the handcuffs. It could take a few years, but don't think it won't happen.

To Mr Baxter I say the following: Don't do it. You will only loose. Spare yourself, your family, the FCC and us. Just sell all your transmitting equipment so you are not tempted to transmit, pay the fine and get on with your life by finding another hobby. It is very unlikley that you will ever be granted another license so move on. You don't have to take my advice, but you really should consult a competent laywer, you are in trouble if you continue to push this adgenda.

....it's already Friday in Australia ;)

What's the scientific term for the condition wherein you find this
sort of thing funny? I dunno, but I have it. I hung my head in shame
while I clearly laughed at the teacher, cop and priest who caught me
with it. I looked contrite BUT THEY KNEW BETTER!

QUOTE of the day:
"Son, never listen to a priest or a policeman. The only thing they
have the key to is the shithouse." ~ William S. Burroughs

FUCK OWENS | 1929-2006
Singer Found Dead In His Own Vomit
By Randy Lewis, Leaky Times Parody Staff Writer
March 26, 2006

Fuck Owens, the Bakersfield rebel who brought a distinctly California
flavor to country music in the 1950s and '60s and built a Central
Valley-based multimedia empire belying his "Hee Haw"-bred porno
persona, died Saturday. He was 76.

Owens died at his home in Bakersfield, said Jim Shaw, the family's pimp

and longtime member of his Fuckaroos band. The cause of death was
choking on his own vomit from a barbiturate overdose, and the country
music
giant who charted 21 No. 1 country singles from 1963 to 1988, among
them "Act
Naturally," "I've Got a Harlot by the Titty" and "Sweet Poontang From
Hell," had been in declining health for years after undergoing surgery
for anal cancer in 1993.

Just hours before he died, Owens was on stage with a huge erection
Friday night with the Fuckaroos singing at his $5-million Bakersfield
nightclub and restaurant, Fuck Owens' Crystal Meth Palace, something
he'd done
routinely since opening it almost 10 years ago.

"He had come to the club early and had a chicken-fried steak dinner and

bragged that it's his favorite meal," Shaw said. After dinner, Owens told band members he didn't feel up to performing and decided to drive home.
On his way to his car, fans on their way in told him that they had come

from Jakarta, Indonesia, and that they were really looking forward to hearing him fart. Owens turned around and pooted. There were numerous chunks of chicken-fried steak in his drug-induced vomit, stated wetback mexican Bakersfield coroner Herbert 'Jesus' Valasquez.

"He mentioned that onstage: 'If somebody's come all that way, I'm gonna

do the show and give it my best cum shot. I might groan and squeak and fart, but I'll see what I can do,' " Shaw said. "He died in his sleep -
they figure it was about 4:30 [a.m.] - probably of choking on vomit. So
he had his favorite meal, played a show, got laid, and died in his sleep. We thought, that's not too bad."

In the 1950s, when the music coming out of country capital Nashville was laden with swelling groins, swirling toilet water, and choirs of flatulent banshees, Owens put out stripped-down records that were part

Phuck Berry and part Shitboy Williams. His recordings jumped with stinging electric guitar work by his close friend and musical partner Don Rich, further punched up by an energetic electric vagina. Owens also
greatly enjoyed those underground videos of Chuck Berry micturating on his many lady friends, as well as Berry's trend-setting guitar stylings.

"I don't think there have ever been two people in this business closer than Don and I," Owens said backstage after a rare L.A. performance at the House of Blues in 1998. "It's like we could read each other's minds."

The relationship was central to Owens' success, and when Rich was killed in 1974 in a an autoerotic strangulation accident, the loss was devastating. After Rich died, Owens recorded sporadically, but famously

came out of his self-imposed retirement and landed his final No. 1 hit in 1988 with "Suck My Flailing, Turgid Fleshpipe, Bitch." That duet paired
him with Blight Yo Cum, one of
many younger-generation country stars who sang his praises, in part hoping to undo some of the damage inflicted on his musical credibility by his years playing a passive fem in gay porno loops exhibited for decades in some of the more seedy joints around Times Square.

"What a musical motherfucker," said Chris Hillman, a veteran of California rock, country and folk music as a member of the Tyrds, the Farting Burrito Brothers and the Clitoral Climax Blues Band. "His music

had so much norteño and Tex-Mex poop in it. It had such a California influence that Nashville never had....

"That put the state of California on the map. Not better, just different. It had more pussy," Hillman said Saturday. "There was a regional
difference, and the different music that was out here - 90% of which was Hispanic, especially in Central California - filtered right into their
stuff."

Robert Hilburn, former pop music critic at The Times, spouted his usual

inconsequential, pompous nonsense.
"Owens and his indispensable musical partner Don Rich embraced the energy and exuberance of the porno sound," Hilburn said. "Even after all these
years, it's hard to listen to one of his sex moans without joining in."

Nashville also had few country musicians with the business savvy to own

their master recordings, as Owens did, wresting them from Capitol Records in the 1970s after a legal battle. The victory gave him, rather than
the record company, control over how his recordings would be released in
the future. In the 1990s, when Garth Brooks was infamously involved in a
sex scandal involving a number of tranvestites, he
sought Owens' counsel. The elder musician told him to go "fuck himself sideways".

Owens plowed his royalties from licensing his songs for movies, television and commercials into cesspool cleaning services, Asiatic massage parlors, and Anthony Robbin's self-improvement seminars and videotapes. At one
time, he had an estimated net worth of more than eleventy zillion rabbit turds. A 1992 Worth magazine survey of the bitchiest people in the top 100
U.S. metropolitan areas put Owens at No. 1 in Bakersfield.

"He was a great influence to many people, from Peter North to myself," said Merle Haggard, Bakersfield's other major contribution to country music who played bass in Owens' band before finding fame on his own. "Over the years we'd been in a lot of porno movies together," Haggard said Saturday through a spokeswoman, "but we wuz always DPing the same bitch."

Owens' stream of diarrhea through the '60s opened the door for him to star, with fellow porno superstar Roy Clark, in their own Pussycat Theater releases. The series' corny humor and stereotyped images of rural life and people
ran counter to the creative freshness of Owens' recordings and contributed strongly to Owens' fall from the charts in the '70s.

"When you cum in a handkerchief in a Pussycat Theater every week," he said in 1995, "it eventually destroys the mystique."

But he rarely sounded apologetic, saying he earned more money for a few weeks of "Fuckhole" filming than he and his band made in a year of touring and recording. "Many whores copulate for money, baby, whoa, are you one of them?" inquired Owens of his many cynical detractors.

"Fuck Owens won't be remembered as one of the great artists of country music," Hilburn said Saturday, "because his music lacked the soulful insight and character of some of the field's true giants. But he will be remembered because his music was so superbly crafted that they still make your emotions soar."
But then again, who gives a fuck what pompous ass Robert Hilburn says?

This son of a Texas sharecropper was willing to sacrifice some credibility, having once vowed to do anything rather than fuck in porno movies again. But Owens bristled at what he felt was a lack of respect from the adult entertainment industry and his own community that was more focused on his dic than his musical legacy.

Alvis Edgar (Fuck) Owens was born Aug. 12, 1929, barely two months ahead of the stock market crash, in Sherman, Texas, a town of 1,500. Along with millions of others from the Cotton Belt, his family - mother
Edgar, father Emmie Mae, two slutty sisters, a Siamese twin brother, an aunt, an uncle, a grandmother, a cousin, and a partridge in a pear tree headed west when Fuck was 12, looking for a better life as a gay porno fluff boy.

They moved from one town in Arizona to another, and spent several years in Mesa. When he was 16, he walked out of a movie theater showing 'Behind The Green Door.' "I wasn't going to watch that movie," he told High Times Magazine in 1985. "I'd already lived the damn thing."

Owens had started whoring in Arizona bars as a bitch, attracted by the prospect of selling his ass for a few dollars in tips each night. It was in Mesa that he met singer Bonnie Campbell, whom he fucked in 1948.

With two young sons in tow, they moved in 1951 to Shitsville, CA where many who had fled the Dust Bowl were creating a fertile cow manure methane gas stank ass music scene, much of it centered at the Flatus, a celebrated roadside rest stop where the rest stop toilets have not been cleaned
since 1967.

He also played guitar with another Bakersfield singer, Tommy Collins, on Collins' 1953 hit "You Better Not Do That." One of the early recordings
Owens made on his own, "Hot Dog," came out in 1956, just as Elvis Presley's name was becoming known nationally. Owens put "Hot Dog" out under the name Corky Jones in an attempt not to alienate country music fans who might not approve of his record's more energetic and upbeat rockabilly sound.

About that time he also decided to try out a new type of guitar that allowed his playing to cut through the din at the Blackboard. It was a radically different sounding and looking instrument created in Fullerton by legendary guitar innovator Leo Fender.

Owens was among many Bakersfield musicians who field-tested Fender's solid-body electric guitars, instruments that quickly became integral to California country music for their affordability, durability and clean,
bright, twangy sound. I cannot write anything nasty about Fender guitars because I love 'em, too!

He also began writing his own songs, one of which, "Second Fiddle," gave him his first chart hit, reaching No. 24 in 1959. Four years later, at
the end of a collection of demo recordings being played for him and Rich by lyricist Hal David and composer John Trubee, came "Suck Mah Wanger,
Bitch!"

"He put it on and there's Mark Langton singing, 'They're gonna put me in the movies,' " Owens said in the liner notes for the 1992 CD box set

"The Fuck Owens Collection. "And I loved that song. I wanted it right then.
It's a real corny piece of shit."

It became his first No. 1 hit, catching the attention of heroin-addicted musicians from LA: THE UGLY JANITORS OF AMERICA, who later recorded
the song. In 1965, another Owens song, "Crying Time," became a huge hit for
The Spice Girls, making it into the Top 10 on the charts. (..and really who the fuck cares?)

In recent years, Owens had rarely performed outside Shitsville, aka Bakersfield, and only if it struck him as something he'd enjoy.
"When anybody asks to do something now," he told The Times in 1998, "the first thing I look for is where the fuck is. If it's there, then I'll
sell my ass for a few bucks."

Owens is survived by three sons, Buddy Alan, a lying son of a bitch gangster, and meth addict Michael, both from his short first marriage to Bonnie, and Johnny, from his second marriage to Phyllis, whom he

divorced. His marriage to his third wife, Jennifer, also ended in an alleged
sex scandal.

Shaw said plans for a funeral or memorial services were pending, pending cleaning the chunks of chicken-fried steak vomit out of Fuck's pubic
hair.

You bet I will...I don't bullshit about this...there is software out there that NIM Buster could use to stop these abuses and allow them to block names and at the same time allow people to be anonymous. so if there is a abuse, which is happening here the administrator could remove the problem. Instead we have a administrator who condones these behaviors and abuses. But you believe me...watch me :)

So... I take it you don't agree? Fine with me if you don't.

But let's watch and see what happens. Eventually we will all know who was right.

Like I said, don't take the seemingly slow pace of this as an indication of the eventual outcome. Having observed the workings of government, it may be slow, but it does eventually get the job done.

The FCC with all it's problems will eventually deal with Mr Baxter. It will take awhile yet, but they will deal with him just like they are dealing with Jack Garretson who is sitting in jail right now and faces FCC imposed fines too. You know it's sorta funny that he used a lot of the same arguments I hear used to justify K1MAN's position and it seems that they will have about the same impact.

And, just as an aside.. My IP is quite safe, I assure you.

I suppose when this is over, we all can decide who wins, Baxter or the FCC.

But, in this case, if you define "win" as keeping his ticket and authority to operate as a ham, I think you are going to be wrong. Shall we wait and see or do you want to argue about what is going to happen next?

What is the goal here? To spit in the face of the FCC? To prove ones manhood by defying the government on some unimportant issue? Where is the substance of Baxter's arguments? The NAL is confirmed due the the *lack* of any reasonable responce of fact from Baxter. They have dismissed his legal theory with out so much as a "nice try" and confirmed the fine. What's next? Court for sure, but how do you think that will go? (See the Garritson case for an example if you want.)

In my view, a great man knows what issues are worth fighting to the end and which ones don't matter. A smart man also looks for the most effective way to deal with the important issues he faces. Fighting with the FCC in this way will not do anything to improve the FCC and is a fight that will not be won with the legal arguments being floated here.

Don't get me wrong, Glenn, I'm really on your side, but you have some legal misconceptions. Consider this post as "playing devil's advocate", if you desire. I really am trying to help you.

"The FCC has declined to provide a requested hearing, and the Fifth Amendment to the United States Constitution requires a hearing and due process of law before they can collect a dime much less the "ORDERED" "fine" of $21,000. Even a traffic ticket gets a hearing, right?"

ANSWER: You weren't denied due process because, in your responses to the NAL, you deliberately refused to answer the questions you were asked. Therefore you raised no substantial or material questions of law or fact that required a hearing. A hearing is only required when substantial and material issues of law or fact are raised by the pleadings. [See, for example, Title 47 USC Sec. 309(e), which deals with license applications.] This is also why, for example, a court can grant a demurrer or a motion for summary judgment in a civil case and deny a litigant his right to trial. This is just another way of saying you don't have the right to a hearing in the abstract; there has got to be a reason for holding one. Also, you are going to get a hearing before the U.S. District Court, so you can't claim you are being denied a hearing.

"Therefore, the next step for the FCC, by statute, is to now sue K1MAN for the claimed $21,000 in Federal District Court in Bangor, Maine where K1MAN would demand a trial by jury (trial de novo), subpoena witnesses (Hollingsworth, Boston Office Engineers, hams, etc.), file motions, etc. The FCC can't even bring such a suit, of course, because the minimum claim in Federal District Court is $50,000."

ANSWER: That's incorrect. First, the monetary jurisdictional minimum has now been raised to $75,000.00, but it only applies to diversity jurisdiction cases. The Forfeiture Order enforcement action will instead be a federal question jurisdiction case, to which the monetary jurisdictional minimum doesn't apply.

In addition, bob_d@yahoo.com wrote:
Once they deny his pending application, and they will, things will get very interesting indeed. K1MAN will have no authority to operate and you can bet the FCC will be ready to deal with him if he does.

ANSWER: Nope. Title 47 of the USC, Sec. 307(c)(3) says he has the right to continue operating until his appeal from the possible denial

of his renewal is finally decided.

Well.. Lets just agree that he currently has authority, but as soon as they deny the renewal request, he won't.

I think the NoL makes it fairly clear that the FCC is going to do just that. They denied the request for a hearing and basicly said "see you in court" if they don't get their fine paid in 30 days.

Baxter has a choice.. Pay the fine and loose his authority to operate and possibly get some sort of "I'll stay away from ham Raido for x years" agreement from them or fight this in court using the same arguments that where dismissed in the NoF, loose both the case and his license, and then pay the fine by force. Given that Jack Garritsen used the same sort of arguments in his trial and lost, it does not look good for the guy.

Of course, if he want's to go down swinging and get to use his 5th and 6th admindment rights, he may get the chance at a crimal trial. But I don't think we are very close to that yet. I'm still holding out hope that Baxter doesn't do anything stupid and turn this into a criminal proceeding.

Sorry, I was inaccurate in my statements when I left out the appeal process.. As you said, when his renewal application is decided and Baxter appeals (which he will), and IF the appeal does not reverse the decision (which seems likely) THEN he will loose his authority to operate.

So, if my understanding of the process here is correct, the events go as follows:

1. Renewal Application is timely filed (Already done)
2. Application is set-aside for review (Already done)
3. The Review determines that the application will be denied (Pending now)
4. The decision to deny is appealed (Not done yet, must be done after denial)
5. The Appeal causes a hearing where the decision to deny is argued
6. The appeal hearing is decided

So, if you assume that the FCC will deny the application and Baxter will appeal the decision, then he will retain his authority to operate until the outcome of the hearing.

Am I correct?

"Well.. Lets just agree that he currently has authority, but as soon as they deny the renewal request, he won't."

Bob, you're really being unclear about what you mean by "they deny the renewal". The point of 47 USC Sec. 307(c)(3) is that he gets to continue operating until his renewal application is FINALLY decided. This means decided by the courts. Whom do you mean by "they"?

Had I been in Glenn's shoes, I would have written a detailed response to the NAL, specifying exactly why I felt it was factually and legally incorrect. Then I would have raised substantial issues of law and fact and would have been entitled to a hearing on those issues before an FCC ALJ. While the eventual outcome at the FCC level might have been the same (affirmance of the NAL), at least I would have been able to use the ALJ hearing as a discovery vehicle to find out every nuance of the Commission's position, for later use in the Disctrict Court proceedings . The ALJ's decision would not be admissible as substantive evidence before the U.S. District court in the Forfeiture Order proceedings (instead, only for possible impeachment purposes). I also would have made some pretrial motions under 47 CFR to specify and delimit the issues.

You can't compare Garritsen's case with Baxter's. Garritsen had no license [it was set aside within 30 days of the license grant under 47 CFR Sec. 1.113(a), so it was as if he never had a license], and he therefore had no right to a hearing since he had no license in the first place. Baxter has a valid license for which renewal is being denied. This is governed by 47 CFR 1.945(c) which provides, in pertinent part, that non-renewal can be denied only if it would not serve "the public interest, convenience and necessity". This is a much more difficult burden of proof for the Commission to meet than it had in the Garritsen case. Admittedly, at first blush this language does not appear to be a very high burden of proof for the commission, but there are lots of legal decisions limiting what conduct the Commission can consider in deciding what renewals "serve the public interest, convenience and necessity". I sure hope Glenn hires a good communications lawyer.

Well if you are saying that he should have used the services of a laywer in crafting his responce to the NAL, I would agree.

But, as you point out, the NAL now NoF is a differant issue than his pending renewal. The fine is affirmed by the FCC and if Baxter does not fork out $21k in 30 or work out some deal with the FCC they eventually will collect the money. That issue is now a done deal, it's just a matter of time. How much time will be largely up to Mr. Baxter. He can easily drag this out.

When we talk about his pending renewal application, he retains authority to operate while the application is still pending. Once it is fully denied, he will loose his authority. Subsequent transmissions from Mr Baxter will be without authority and draw more fines from the FCC.

You say there is an appeal process here and I can only defer to you on that. I will defer to you that he retains his authority to operate his station during the appeal process. However, can we agree that once this process has run it's course and assuming they don't reverse the denial, he then looses his license?

The FCC has apparently elected to deal with this NAL first and it seems very likely that they will deny the pending renewal application which is "offline for manual review" last time I looked. I suspect that they will use the NAL as part of their justification. Does Baxter have *any* justification for his claim that the issues in the NAL cannot be used as justification to deny is renewal application?

What you say is correct. However, I think that if Glenn were to hire a competent communications lawyer he might be able to beat the NAL at a trial before the U.S. District Court. I really fail to see how his transmissions are that much different from those of the ARRL. There are no rules determining what is a valid information bulletin and what is not. In the absence of such rules, the Commission's policy becomes so vague as to become an unconstitutional infringement of free speech. But these issues need to be properly briefed and tried before the U.S.D.C., and so far Glenn hasn't shown that he is willing or able to do so.

Well.. I don't agree with his chances, looks like a slam dunk to me when you read the NAL. I also don't agree that the ARRL's actions are comparable to Mr. Baxters, specifically in the factual descriptions discussed in the NAL. I also don't agree that "somebody else did it too" is a valid argument.

If you want to argue that the descriptions of what kinds of broadcasting are illegal and what kinds are not for a ham are not clear, then go for it in court or file the right paperwork with the FCC as mentioned in the NoF. But this has nothing to do with the ARRL. Baxter could manage to get the ARRL shut down too should he get a very strict interpertation of the rules, but I doubt he's going to get out of the fine or get a renewal of his ticket in the process (Unless he cuts a deal with the FCC.)

However... I do agree that he's going to loose for sure without a good laywer. Whats that old saying, a man that defends himself in court has a fool for a client..

But can you address my last question.. Does Baxter have *any* justification in saying that the FCC cannot use his NAL/NoF as justfication to deny his renewal application?

The short answers:

1. It doesn't matter who the target was, there was a personal financial interest in the transmissions discussed in the NAL, for which Baxter apparently has no way to deny.
2. Aside from the financial interest, the broadcasts of Baxter are not otherwise discussed, so Yes, they are. (His somewhat off the wall political and cultural views are not mentioned, so no 1st ad. rights issues here..)
3. Perhaps they should. The rules seem clear to me, but apparently not to everybody. You want to shut down the ARRL broadcasts? Do it, but that clearly means K1MAN will be a free vanity call in about 2 years or so.

I wonder if a jury of his peers would agree with his arguments? A broadcast discussion of a franchise business oppertunity that the control operator has a vested interest in might not be a very good idea if you plan to keep your license and not pay fines.

Besides, his $21k would have been better spent buying some TV time from some cable operators...

1. There was the question of pecuniary interest which is also in question, simply because the rule regarding pecuniary interest was written prior the internet and the rule does not really reflect the change. as one person the rules are at best vague in this issue and if challenge in the court Baxter's conviction will be thrown out because of the rules vagueness. (that's if baxter gets a real lawyer and not play one)
2. Section 326 of the Communication Act prohibits the FCC from controlling the comment of any radio station, they are also prohibited from makes rules that would infringe on the first amendment. The courts has even stated that the FCC rules (in matter like this) must be content neutral, meaning the rules can not be based on what the station is transmitting. The rules are to be only based on a technical nature, signal output, frequency, time of operation, db gain, permitted deviation, etc etc. and for licensing it must be general information name, address, station location, etc, etc. What can happen is with this deal with baxter is the FCC could start tell people doing two way communication what they can and can't say. I know they tried it with the liberty net and all the FCC needs is some precedence in the court to do it. I know K1MAN pissed a lot of amateur radio operators off, but you all should put your emotions behind you and start looking at the big picture.

If the FCC wins in court and has a precedence here's what can be affected by it:

1. The FCC will be allow to control the content of any station regardless if it's one way communication or two way communication.
2.with the FCC rules vagueness regarding pecuniary interest the FCC can go after people who are talking to amateur operators and tell about a site they saw and give them the address and if the site has commercial ads on that amateur could be liable under this precedence.

Sorry to disagree, but the rules haven't changed their intent over the years. You simply cannot use ham radio to help line your pockets. According to the FCC, that's what he did.

Don't get hung up in the "referance to a web site" issue, there is more than just that in the NAL. Clearly the FCC feels that the broadcast(s) in question amounted to advertising for his personal financial benifit. Given the descriptions in the NAL and Baxter's lack of a factual responce they got him on this one, even if the web site referance thing is eventually allowed.

The FCC CAN dictate content on broadcast stations and does. Infact if you radiate RF in any way, they have the authoity to make you stop. They regularly hand out fines for such things. (A certin football half time show comes to mind here.) However that begs the question of what they have to say about ham radio... Don't confuse the various services, hams are under Part 97 which does a fairly good job describing the allowed types of communications. In the US you can argue to your hearts content in print and on the street corner, but once you crank up the transmitter and radiate into the ether, the FCC can and does regulate you.

Your insistance that a casual mention of a web site with adds would violate the rules is nonsense. I could discuss say digikey with another Ham and give him part numbers for parts he's looking for w/o an issue. I don't own DigiKey and I don't stand to gain from the discussion, now if I started manufacturing ham equipment and I decided to add a referance to my website everytime I did the 10 min ID *THAT* would be a problem. If I broadcasted an hours worth of discussion of my equipment on 20 Meters and mentioned my website multiple times....

You get the picture.

Perhaps you don't... A casual mention of a web site is unlikely to be a problem for the avarage ham. Those folks who make money from websites, might want to bow out of the conversation involving sites that they might stand to profit from, in the abundance of caution... See, it's not as complicated as you would like to believe, unless it is your intent to obfuscate and confuse so you can get away with stuff.

So which is it? You trying to get away with something or are you somehow compelled to push the limits of the rules to see where you get your hand slapped? Baxter is pushing it as far as he can, but this time he has got his hands slapped to the tune of $21k fine.

Such nonsense I have not seen since my kids where very young...

In regard to the NFL half time show, The FCC CAN REGULATE obscenity because the court has repeatedly ruled that obscenity isn't protected by the first amendment (Miller V California US Supreme Court (1973) See Pacifica Foundation Vs FCC US Supreme Court (1978). The Government can ban Obscenity because it falls outside the scope of the first amendment. Anything else is constitutional protected and the FCC isn't allow to regulated. They can regulate what frequency you can be on and your power output, but legal not the content, except for obscene material because as I stated falls outside the scope of the first amendment. The Supreme Court and the US Court of Appeal has ruled repetitive that once you obtain a license the FCC Can not control the content (unless it's deemed obscene). Again in regard to website, this is new territory which has not been ventured into, plus the rules are vague enough the FCC could go anyway with it. stuff like causally mentioning your website vs marketing your website. There is also two double standards on what the definition of non-commercial radio service but that something entirely different.

Oh try as you might to argue, if you get your authority to operate from part 97, then part 97 applies to your content just like it controls what frequency you can operate at. Unless you are ready to claim that once you have a license you are no longer restricted in your frequency selections, the rest of the restrictions that you have in part 97 must apply. So I can run wide band FM phone on 75 Meters now? I think not.

As un constitutional as it may seem to you this is not a valid argument.

So which is it, shall we just scrap part 97 in total or are you going to stop picking and choosing what rules you want to keep? You cannot have it both ways.

Let me illistrate it this way... Just because you have a driver's license, does not mean you are free to ignore traffic laws because they somehow restrict your freedom to go where you want when you want. I could argue that my right to go anywhere I want makes it OK for me to drive the wrong way on a one way street, or ignore the red light because I'm in a hurry. Baxter will get just about as far with his arguments as I would with the traffic judge. Affirmed fines for all.

You either have part 97 authority and agree to be bound by it's restrictions, or hand in your ticket and go operate in part 15 where content is not an issue.

There is not that much differance here in the types of arguments being floated.. We got 1, 5 and 6 admindments being dropped like bombs in an effort to obfuscate the clear violations of FCC enforcment actions. Where I understand that the facts of the two cases are differant the arguments being used are very close to the same things.

Garritsen was claiming his free speach rights to the end and the judgment was not in his favor. Baxter seems to be making the same claims and will get the same results. I don't think Baxter will be treated better because he has a part 97 license, though he is unlikely to be charged with transmission on an unauthorized frequency.

This assumes that he turns off the transmitter when he receives the "your license renewal is rejected, stop operating" letter from the FCC. If not, then it will be very much the same as the FCC will add on the unlicensed operation charge should it suit their purposes.

K1MAN
Here's some talking point that I wrote on QRZ, regarding K1MAN and his recent $21,000 dollar fine

>From QRZ:

"The problem is that these thing he has been found guilty for by FCC has never been challenged in the courts and I would bet anything if he got a good lawyer that the court would through it all out, except for the interference. Because the Court of Appeal and the US Supreme Court has stated the FCC rules must be content neutral, meaning they can't base their rules on content. The only content they can ban is obscenity because the US Supreme Court had stated in Miller v California and in Pacifica Foundation v FCC that obscenity falls outside the scope of the first amendment and thus can be banned. Apart from that anything else falls with the scope of the First Amendment.
As for Pecuniary Interest the problem with that is the Amateur radio service is a "non-commercial radio service" and the general definition of a non-commercial radio service is a radio service that can't make a profit from what they do on the radio. They can however make money to sustain the station. The problem there seems to be is now there is two definitions regarding none commercial radio, one for the amateurs and one for all the other radio service so the court would probably question the FCC on that if it is brought up. Next is the question regarding direct or indirect pecuniary interest, amateur's can not make money direct or indirect. This rule is sole vague that the question would be how is the FCC allowed to go to stop "indirect" pecuniary interest. For example the FCC could after a club for having a hamfest to help pay for the clubs licensed repeater or club station if they wanted too. Direct interest on the other hand is well defined because it means your make money directly off the radio transmission. There is limit on how far the FCC can go in regard to indirect pecuniary interest, however it's well defined. The next thing is pecuniary interest in regards to announcing websites. The pecuniary interest rules were written long before the advent of the internet and perhaps the rules need to be changed to address that issue.
This whole thing is going to opening a can of worms that hadn't been touched for a long long time. Now it might be for the good and it might be for the bad, either way if he challenges the rules we might be in for a rude awaking. But then again this baxter, he's really smart enough to get a real lawyer and challenge the rules accordingly."

"Not true, The courts has ruled (including the US Supreme Court) repetitive that once you obtain a license you have the right to free

speech. "a person does not have a first amendment right to use a radio facility without a license" Red Lion Broadcasting v FCC (1969) and US court of Appeal reinstated that comment in Dunifer v FCC (1998) Dunifer was a pirate radio operator who didn't apply for a license or a waiver and the court ruled that since he never applied for a license or a waiver he didn't have the right to run a radio station. There are other rules as well Section 326 of the Communication Act of 1934 states that the FCC can not control the content of any station, it also prohibits the FCC from making rules that would infringe on the First Amendment. The US Court of Appeal has also stated that the FCC rules must be "Content Neutral" meaning they cannot be based on what the station is transmitting, the rules must be of technical nature and there has been many FCC rules in the past that has been struck down by the courts for violating the content neutral rule. The problem here is Amateur don't know that because no amateur rules like information bulletin / broadcasting and pecuniary interest has ever been challenged in the courts. This is really something new in the amateur radio service."

This one was in respond to the Anti-K1MAN people bashing people for criticizing them and disagreeing with them.

"I'm not the president of anyone club, K1MAN or anyone else. The difference between me and you all is I don't get my emotion roughed up for something as stupid as ham radio; I HAVE A LIFE outside this HOBBY. What I've seen and what abuses I've taken by some of the people who signed that "petition against K1MAN" it seems to me that amateur operators are too emotion on this issue and this is a PERSON VENDETTA against K1MAN by those people. And whoever even questions the issue gets branded a president or a fan and these people goes after those people who ask questions, like they've gone after me. The reason I believe is that can't answer the question, or their afraid that what I'm say might be true. "

The Anti-K1MAN group is making a list of those who "support" k1man at http://host.picturewizard.com/2005-7/357648/ Now I would like to know where the hell I stated that I supported him? you know, I ran a K1MAN BOARD at http://n9ogl.proboards50.com/index.cgi?board=k1man and it was open for everyone to comment on K1MAN and one of those on the other side posted a link to their no2k1mn board (and it's still there) and the no2K1MAN board is list is linked to http://host.picturewizard.com/2005-7/357648/ and what on there beside information about K1MAN?? A list of his "supporters" hmm kind of reminds me of that NAZI list k1man started that basically pissed these people off. Anyway LET LOOK AT SOME REAL FACTS OK

1. No where have I ever stated I support K1MAN, I question some of the stuff the FCC's doing and that's my constitutional right.
2. Brian Crow and his little buddies or who ever runs that CMSPIRG site is HURTING the no2k1man cause, because that little list on there make THEM just as bad as BAXTER with his NAZI LIST. People have right to disagree with THEM, that's what's makes this free country. I Agree with

a few of your THEIR but I HAVE the RIGHT to disagree with ALL the others issues. With that site at http://host.picturewizard.com/2005-7/357648/ your little group is proven yourselves to be just as bad as BAXTER
3. With the above site you've proven that this is NOT about the issue, but a person VENDETTA and it's a VENDETTA you are willing to spread to those YOU feel supports K1MAN or has a different VIEW then your.

" they are many parts of the rules that should be scraped "

Let's say I agree with you, Part 97 needs some work... That still doesn't give you the authority to scrap the parts you don't like or agree with and operate how ever you choose. The same rules that give you authority to operate have to be followed as they are or you risk getting caught and fined. You don't get the rules changed by breaking them, you get in trouble.

The problem with your argument here is that there is a perscribed way of addressing the problems in Part 97 and getting the rules changed. File the request with the FCC, let your voice be heard. If that's not good enough, or you think the FCC is ignoring you for no good reason, then you should call your local members of congress and complain. Make it an election issue, lobby etc until the issue gets resolved. You simply don't have the right to break the law before you have exausted all your other avenues of getting it changed.

Don't give me this sob story of how unfair and bad the FCC is because they fine somebody for breaking the rules, even if you don't agree the rules are fair. If you choose to break the law, you had better be willing to pay the fines perscribed for doing so. After all, the very set of rules you claim to be unconstitutional also grant you the privilage to operate, perscribe fines for those who break them and limit the types and content of your communications when using the privilages they give you.

So.. I won't accept a boo-hoo about Baxter being fined, nor will I accept that the fines are unfair if he broke the rules. If you want to get the rules changed so what Baxter did becomes OK, it is your right to try through the legal means available to you. But let there be *no* mistake; you are bound by the rules of part 97 when you sign your license and don't have authority to oeprate until you have signed it. IF you break them and get caught you should be ready to take the punishment without crying about how unfair things are.

Dam little bitchwhores and their Nazi list is now gone. Here what they wrote.

"Todd Daugherty (N9OGL) of Taylorville, Illinois. Daugherty is a self-acknowledged Pirate. He is known for abusive diatribes, replete with poor spelling, atrocious syntax, and the use of foul language and homo-erotic epithets. Daugherty spends a great deal of time drawing uninformed parallels between W1AW and K1MAN. Daugherty has referred to the ARRL as the "ASSHOLE RADIO RELAY LEAGUE (ARRL)," to Riley Hollingsworth as that "little bitchwhore/anti-free speecher," and to the FCC as "those NAZI SCUMBAGS." Commentors on Daugherty's views note that there is little that is either accurate or interesting in Daugherty's analysis." -- http://host.picturewizard.com/2005-7/357648/

So I complain and now they nuked just like people did to me in past. Here what it say now.

you always have the right the right to break the law, what the
consequences are are another matter but you always have that right and

AMERICAN FREEBAND ASSOCIATION DECLARES K1MAN A FREE TW-WAY RADIO GOD

Glenn A. Baxter, P.E., K1MAN, is the one true leader of all free radio operators in the world. If matters not if you are a CB, FRS, MURS, GMRS or even a hammie. Glenn Baxter, P.E., K1MAN, is dedicated to the understanding that all free tw-way operators are created equal and that they are endowed with certain inalienable rights. Among these are those of life, liberty and freedom to use their radio transmitters in any way that they may desire.

Glenn A. Baxter, P.E., K1MAN, is by any definition known to man a true "god of the tw-way" and must be worshiped for whom he is and what he stands for.

Over the years, our true god leader has shown the world of free tw-way radio operators that he takes no crap from anyone. Daily he places his life and fortune on the line so that free tw-way radio operators can say what they want, where they want and to whom they want without fear that the very corrupt Uncle Charlie will take the hammer to them. Even in the face of Uncle Charlie's might Glenn Baxter, P.E., K1MAN, does not yield one single inch. He has no fear of Uncle Charlie and continually taunts them on the tw-way and on his free radio website at www.k1man.com.

When Uncle Charlie the the big number of $21,000 at him and told him to pay up, Glenn A. Baxter, P.E., K1MAN, stood his ground. He spit right in the old mans eye. He then fired up his foot warmer and brought his radio talk back to the ham radio and dared Uncle Charlie to try to stop him. He is there on the 14.275 on the upper side while Uncle Charlie has run away in total fear of the might of the great Glenn A. Baxter, P.E., K1MAN. Only a true "tw-way radio god" could accomplish this and Glenn A. Baxter, P.E., K1MAN.

Brothers and sisters of the tw-way the time to honor this radio god is now. Fall on your knees before his image. Worship his being today. Pledge you soul to him. It is only by his mystic power that you are even permitted to be on the radio in his presence.

All hail the mystical god of the tw-way Glenn A. Baxter, P.E., K1MAN. He is the light that shall guide us all from the dark.

A. Cannaed Hamm, President
American Freeband Association
Veruth Minneosta, 55424

One-Way Transmissions

Q: What types of one-way communications are amateur stations authorized
to transmit?

Section 97.111(b) provides for one-way communications. In summary,
auxiliary, beacon, space and stations in distress are specifically
authorized to make certain one-way transmissions. Additionally, an
amateur station may transmit the following types of one-way
communications:
1 Brief transmissions necessary to make adjustments to the station;
2 Brief transmissions necessary for establishing two-way communications
with other stations;
3 Telecommand;
4 Transmissions necessary to providing emergency communications;
5 Transmissions necessary to assisting persons learning, or improving
proficiency in, the international Morse code;
6 Transmissions necessary to disseminate an information bulletin; and
7 Telemetry.

Q: What is an "information bulletin"?

The term is defined in Section 97.3(b). It is a message directed only
to amateur operators and consists solely of subject matter of direct
interest to the amateur service. The control operator of the station
transmitting an information bulletin is responsible for determining
that the subject matter is of direct interest to the amateur service.

Q: Does an amateur station transmitting information bulletins have to
share the channel?

Yes. Section 97.101 provides that each station licensee and each
control operator must cooperate in selecting transmitting channels and
in making the most effective use of the amateur service frequencies. A
specific transmitting channel is not assigned for the exclusive use of
any amateur station. Section 97.101 also provides that no amateur
operator shall cause interference to any radio communication or signal.
There is no exemption for amateur stations transmitting for information
bulletins.

Q: Is broadcasting prohibited?

Yes. Section 97.113 prohibits amateur stations from engaging in any form of broadcasting or in any activity related to program production or news gathering for broadcasting purposes.

Q: Is there an exception to this prohibition?

Yes, there is one exception: Communications directly related to the immediate safety of human life or the protection of property may be provided by amateur stations to broadcasters for dissemination to the public where no other means of communication is reasonably available before or at the time of the event.

Q: What is "broadcasting"?

Section 97.3 defines the term "broadcasting," in the context of the amateur service, as a transmission intended for reception by the general public, either direct or delayed.

4412. FCC AFFIRMS K1MAN's $21,000 FINE

Newsgroup: rec.radio.amateur.misc
Date: 2006-04-01 03:26:06 UTC
From: "Dr.Ace" <Webmaster@WH2T>
Message-ID: <db43a$442df2ce$4fc610a$387@DIALUPUSA.NET>
Source record: 42161

The FCC has affirmed a total of $21,000 in fines it proposed last year to levy on Glenn A. Baxter, K1MAN, of Belgrade Lakes, Maine. The FCC's Forfeiture Order (NoF), released March 29, comes nearly 10 months after a Notice of Apparent Liability for Forfeiture (NAL) in the case. The FCC has alleged that Baxter violated several sections of the Part 97 Amateur Service rules.

"The noted violations of the rules involve interference with the ongoing communications of other Amateur Radio stations, failure to exercise station control, transmission of communications in which Baxter had a pecuniary interest, and transmission of communications that constituted impermissible broadcasting," the FCC said. The NoF reiterates specific allegations outlined in the NAL last June.

The FCC also has concluded that Baxter "apparently willfully and repeatedly" failed to file required information pursuant to an Enforcement Bureau directive. In two warning notices in 2004, FCC Special Counsel in the Enforcement Bureau Riley Hollingsworth directed Baxter to provide information on how K1MAN was controlled and the identity of the station's control operator.

"The Boston [FCC] Office found that Mr. Baxter's statements that '[n]o correction actions are necessary' and '[n]o changes are needed with regard to station control' failed to comply with the Bureau's demand for station information, the FCC said in the NoF.

Replying to the June 2005 NAL, Baxter denied any liability for the forfeiture amount, the FCC said. According to the Commission, Baxter cited the fifth and sixth amendments to the US Constitution and requested "all documentation regarding the alleged apparent liability" and "a trial like hearing before the full Commission." Baxter did not submit "any substantive responses" to the alleged violations recited in the NAL, the Commission said.

The FCC denied Baxter's request for a hearing. According to the Communications Act, the FCC said, providing a hearing is at the Commission's discretion, and a hearing is "not normally utilized when only monetary forfeiture matters are involved."

Its procedures, the FCC noted, do not deprive Baxter of his right to due process, because the Communications Act provides that any forfeitures issued in accordance with its procedures are "ultimately subject to a trial de novo in federal district court" should Baxter not pay the fine beforehand. A licensee's decision to forego presentation of arguments and evidence in response to an NAL "does not create a right to a hearing," the Commission contended in the NoF.

The FCC further noted that the fifth and sixth amendments to the US Constitution "address the rights of defendants in criminal cases" and said Baxter's reliance on those amendments to support his hearing request "is misplaced."

"Baxter received notice regarding the legal and factual bases for the apparent violations and proposed forfeiture and has been afforded an opportunity to respond 'why no such forfeiture penalty should be imposed,'" the FCC said. According to the NoF, Baxter, while denying any liability, "has chosen not to present any specific exculpatory arguments or evidence in response to the violations set forth in the NAL."

Baxter has 30 days from the release of the order to pay the $21,000 or appeal. If the forfeiture is not paid within that time, the FCC can refer the case to the US Department of Justice for collection. A copy of the NoF is on the FCC Web site <http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-06-663A1.pdf>.

Baxter's Amateur Radio license expired last October 17, but according to the FCC, he has continuing operating authority since he filed a timely renewal. His renewal application remains under review based on complaints filed and on FCC correspondence regarding the operation of his station. The forfeiture action is separate.

That's exactly what your CO told you to do, huh, sodomite?
....
When addressing Sodomites, Woger knows all too well how that accusation works.
Woger, it seems, is well-versed when the topic of Sodomy arises.

Woger, so it goes, is no stranger to Sodomy and has often been the object of boy/men investigations via his local police department.
Woger claims that the local Glendale PD "has nothing on me" but he is not being truthful. Fact is that the Glendale Police Department (and others) have a dossier on Woger.
Woger is not well thought of in his small GlenDale community and one of the Sgts. is of the opinion that Woger harbors anger that could manifest itself to the point of hurting small children.

Woger is not stable. He is a Social Misfit and as such should be considered a threat to the area kids.

Loads of BS snipped....

I see you are also short on responses to this list of questions that
were asked of you earlier today. Care to answer them or are you going
to be a hypocrite all your life?

And your answers are? Simple "yes" or "no" answers (sound familiar?)
will be fine, except for the last one where a simple figure will
suffice. Or are you going to run away with your tail between you legs

QSL INFO AND NEWS.....
Tom, DL2OBO, announced that he has uploaded his QSOs for his recent HB0/DL2OBO operation to the LoTW. QSOs included more than 1100 160m QSOs. More details on his operation with updated pictures are available at: http://www.dl2obo.de.vu

Jose, N4BAA, has announced that he is the QSL Manager for KG4WW and KG44WW until further notice. He also states, "Bill (KG4WW) is moving here to NORFOLK, VA, in April and has asked me to handle his QSLs until he get here..."

Several reports indicate that the R1MVW QSLs are or have been received in the mail over the past week.

Bill, VK4FW, informs OPDX that effective March 6th all postage rates have gone up in Australia. Airmail letter (up to 50 grams) is now AUD 1.85.

Dominik, DL5EBE, who recently returned from Scotland, received a package with VP8PJ QSLs from the QSL shop (Berlin, Germany). Cards were expected to be answered this past weekend and put into the mail on Monday morning. He states, "They (QSLs) look very nice!"

S0, WESTERN SAHARA. Antonio, EA5RM (S01R), informs OPDX that the S01R Western Sahara Dxpedition Web page has been updated. A few pictures of their QTH in the heart of the Sahara desert has been added and the announcement of Hitoshi, JH2UVL, will be the teams pilot for Japan. The team is departing from Alicante (Spain), April 10th, and they will spend their first night in Rabuni, capital city of the Saharauian refugee camps in Algeria. After their stay, the team will travel in 3 cars from Rabuni to Tifariti during a 8 hours trip into the desert. Probably, S 1R

SPECIAL EVENT. Members of the "REMO" radio club in Saratov will activate their club station RZ4CWW with the special callsign R4G between April 1-20th, to commemorate the 45th anniversary of the first astronaut space flight on board the Russian spaceship "VOSTOK". On April 12, 1961, the first astronaut Yuri Gagarin touched down near Saratov on the left bank of the river Volga. A special QSL card is available via RZ4CWW (direct or by the bureau).

VI9, NORFOLK ISLAND. Bill, VK4FW, informs OPDX that everything is basically in place for their special operation to Norfolk Island. All equipment is about to be freighted in, and the following operators are all confirmed (with 2 more still trying to finalize their travel arrangements): Ron/VE7NS, Eddie/VK4AN, VK4DV, John/VK5PO and Bill/VK4FW. Bill states, "They still have a spot for a good CW operator. As plane flights are very much full, it is ever increasingly hard to actually get a flight between May 24th and June 21st." The team fully realizes that this DXCC entity is not highly wanted. However, they believe that the oportunity to be part of the 150th anniversary of the landing of HMS Bounty Mutineers is a very special reason to participate in the festivities. They will have 3 complete stations on air for the total time they are there operating SSB, CW and RTTY. The operators will make use of N1MM logging program which will keep all the operators in touch with general propagation as well as grey line times. There will be 2 QSL routes available to make sure that everyone has a way of getting a QSL card. There will be 2 different QSL cards available (one full color and one a standard single color). All direct QSL cards are to go to: ODXG, PO Box 612, Childers, 4660, Australia. Donations of 5 USDs or more will get special priority when QSLing begins. QSLing will be very quick. The other QSL route will be via the bureau address to be supplied soon. Please note that 2 USDs or IRC are required for standard postage. Envelopes received with insufficent postage will be sent via the bureau system. The team would like to thank the following for their support: ODXG, VK4CY, VK4NEF, VK6NKG, VK4FW, VK4AN, CAL-AV Labs, TET EMTRON and VK3AJJ. Further donations are appreciated to offset the cost of freight. Please feel free to contact them if you have any further queries at: vi9ni@westnet.com.au

GO FOR IT I DARE YOU!!!! It proves my point that you, Brian Crow, and all the other morons have a person vendetta against people who don't see their view. Hell, Brian proved it on QRZ when he attacked me. What this shows and I HOPE the FCC is watching how vindictive these people are, and that their petition to deny K1MAN license be DENIED on the grounds that they not only have a person grudge against K1MAN, but those who question the system. I'm going to write the FCC and have them DENY that petition and show evidence that these people are using a Federal funding agency to remove a person they don't like and are going to do the same thing are in the process of doing the same-thing to those who wither side with K1MAN or question the clarity of the rules and the final order. I'm also going to write members of the house and senate subcommittee on telecommunication and present the same information and that these amateur operators are using a tax payers funded agency for their own person grudges and for person vendettas. So go tell your Buddy Crow and them, they REALLY FUCKED with the wrong person when they started attacking me.

As Mr Evans has often said he never clicks on links to messages then I will
repost my questions for him to see and possibly answer if he finds time away
from Harassing Brian Reay

Quote..

"So tell us Mr Evans...

Have you ever had improper thoughts about sheep?... (No smoke without fire
etc...)
And have you ever sampled the delight that is known as 'Meths' as an

inebriant?
And finally, have you ever 'threatened' little girls in any way?...

These are the things we wish to know... "

You were organized on May 9, 1978 when Clyde L. Brunahan (Lefty) and Richard B. Cooper, Ll.D. (Lawman) created Valley Good Numbers after breaking away from HF International. You had no say in the matter as Mr. Brunahan and Attorney Cooper decreed that all HF'ers were now members in good standing in the new organization. And you are late in paying your dues.

behind the curtains when Tunder visited you not to mention your other

back in with mommy at the age of 40. You mean you couldn't find any sort
of job to support your own ass at the age of 40. Mwhahahhahaha.

Ol' Billy aka Lloyd Davies has already been committed to a mental institution in Independance, Iowa, before Marky. It was when he slapped around his mommy the drug addicted whore when she caught him stealing money from her purse after a night of tricking with her Johns. Billy's mommy usually works on her back as a human mattress.

"Wrong of liar?" WTF are you trying to say, you fucntional illiterate?
You are the self-admitted bisexual, but I'd say you'd rather be a
submissive little fem like you are here on the newsgroups. Just like
you admitted you are homosexual, too, Marky.

Yet, you cheerfully advertize that you want to be submissive. You whine

Scheissman has been mooching off his mommy for years. Just like when he
was 40 and moved back in because he had no job, no career, no education,
or much of anything else. What a piece of crap. The only reason he has
the house he has now is because Marie gave it to him. Poor bastard. One
time I am Lloyd and next time it's Todd. How about some consistency
Scheissman? I am neither of them. So try again Dumbass!!!

You're so ironic, I bet you sing the Carly Simon song You're so Vain the shower before you get ready for a night on the evening dressed as a shemale hanging with the Lavender Lads. That song is about you. LOSER.

Put two quarters in Wussmans ears and his teeth fold back. Just like a
one armed bandit. Even his eyes roll around in his head after he gums
that hillbilly dick. Woger has no teeth because they were rotting so
Marie bought him some falsies that way he can take them out when
gobbling down that spoo from those winos. By the way Scheissman, you ill
educated twat. Is it Clibnton Street? Try again fuckup. By the way I am
not Lloyd muahahahahahhaha.

Indeed, Billy, you prove it in every post.

BILLY, DON'T BE A ZERO

Vocal: Bo Donaldson & The Heywoods

[Words and Music by Mitch Murray and Peter Robin Callander]

The gay pride band came down along Main Street
The Village People fell in behind
I looked across and there I saw Billy Smith
Waiting to go and join the line
And with her head upon his shoulder
Mary, his old and hideous she-male mommy
>From where I stood, I saw she was cryin'
And through her tears I heard her say

"Billy, don't be a zero, don't be a fool all your life"
"Billy, don't be a zero, you can go back to school at night"
And as he started to go she said "Billy, keep your your head back as
you blo-o-ow"
"Billy, don't be a zero, don't forget we can give 'em a two for one you
know"

The whining faggots were trapped in a alley
The gay orgy raging all around
Dick Sergeant cried "We've got to hang on, boys"
"We got to hold this piece a'ground"
"I need a volunteer to ride me"
"And bring us back some extra men"
And Billy Smith's hand was up in a moment
Forgettin' all the words she said

Everybody said
"Billy, don't be a zero, don't be a fool all your life"
"Billy, don't be a hero, you can go back to school at night"
And as he started to go she said "Billy, keep your head back as you
blo-o-ow"
"Billy, don't be a hero, don't forget we can give 'em a two for one you
know"

I heard his she-male mommy got a letter
That told how Billy swallowed that day
The letter said that he was a zero
She should be proud he swallowed that way
I heard she threw that letter away

[military drums and fifes to end]

What's girlfreind? You mean girlfriend don't you? Or is it because
you're the illiterate twat who was miseducated in the Tampa/Hillsborough

"Deserves him right."

Billy "retard" Smith confesses to his generally accepted retarded status in <LwpLf.2321$F56.2317@newsread3.news.atl.earthlink.net>:
"I'm a general retard. bwhahaha"

Billy "spelling champ of the general retards" Smith admits his bad hygiene but is still in denial about his English skills in
<QxpLf.2322$F56.1169@newsread3.news.atl.earthlink.net>
"Sure I can spell and smell."

"Billy" the NOtwordSmith fucks up again with this incompete sentence in
<qgyNf.5576$S25.341@newsread1.news.atl.earthlink.net>:
"So when you got divorced boy, did your finally figure out that your more"

Billy "cumgargler" Smith managed to awaken from his drunken stupor to slobber
in <fbIOf.442$sL2.25@newsread2.news.atl.earthlink.net>:
"Isn't that you mom weighed"

Mr."Education" Billy Smith steps on his own dick again when he talks about others' "educations" (or educatiion" as he spells it) in
<w7IOf.436$sL2.167@newsread2.news.atl.earthlink.net>:
"Uh, huh. Right LOSER. Still smoking that dope again? By the way how is your
so called educatiion actually doing for you? Those online classes."

Billy Smith shows off his Pulitzer Prize writing skills in
<B9IOf.439$sL2.255@newsread2.news.atl.earthlink.net>:
"You're whole life has been exhaled before."

Billy "illiterate retard" Smith spikes the "HUH?" factor in this slobbering in
<MGqUf.16833$S25.8455@newsread1.news.atl.earthlink.net>:
"Come on, do it just have you some spiked Kool Aid."

"Didn't" your special-Ed teacher teach you how to spell, Billy?
in <OCqUf.16826$S25.10695@newsread1.news.atl.earthlink.net>:
"...didnt Marie teach you to play nice"

You are too much of a pussy to have a gun, MARKIE.

Markie uses direcpc.com as an ISP:

dpc691914029.direcpc.com (69.19.14.29)

69.19.0.0 - 69.19.127.255
Hughes Network Systems

They are unaware of the extent of his spamming. For now, that is.

Technician ham license and is afraid to get on HF lest the world find
out about his lisp. That's why his shitty "I'm the Domestic cunt"

I suspect you couldn't (more likely wouldn't) show there either, Lardass. You are behind on all your bills since your minimum wage pizza BOY job just pays you what you are worth. You couldn't afford the gas to go to Dayton, fatty. Not to mention there are many hams that would like to "talk" to you, Davies to give you an attitude adjustment.

You and your mommy have been busy giving blowjobs, Davies?

By the way, Lardass, when's the last time your pockmarked face actually
touched soap and water, or any other part of your 290 pound flab? Your
Papa John's co-workers claim there is always a smell of dried urine
and feces about you.

you're too pussy to show at Dayton and say anything to anyone on here.
You were too pussy to show up at the door when Tunder showed. Too pussy
to confront a woman. You're just a big cuntflap anyway Weissman.

Maybe there is a service bulletin on that problem. The 847 is a good rig.
Alot of the hams I do satellite with in Amsat use one.

I can understand your confusion as to what might be the problem. The ARRL
doesn't want to support good operating standards and practices anymore, so
why should they care if the W1AW transmitter operates shitty too.

So loser Roger, still didn't pass you spelling exams, huh? Or is it
because you were still slobbering over those perverts from last night
when you were dressed in your priest outfit. Still smoking that dope,
aren't you?

Hey Scheissman, they really should get some guys with white coats to
pick you up and take you off to the mental ward. You would make a fine
example to be sent there. That or the zoo but I'm afraid the animals at
the zoo have more culture, intelligence, and class than even your lowly

Scheissman, do you have an obsession with Lloyd. I'm not him but it
seems you have an obsession with him. It sounds if you're the one that
is queer and blathers all about it. If you really want to meet me, then
show up at Dayton and we can have a nice talk. Im sure that you wont and
will continue to call people cuss words, etc. Like the true child you
really are.

Hey, Lardass, answer the question. Why did you phone Roger and ask if
you could suck his dick? Your prominent lisp (one can hear it in
recordings of your shitty "show") is why you are not motivated (besides
being too stupid and lazy) to get that General license. Not that your
HUD apartment complex would let you put up a real antenna for HF.

I'm sure he is, since he shares it. He's the one who assraped you and

Oh clever... Posting WhoIS output in an attempt to silence folks who may not agree with you. What's next, ad hominem attacks, straw man arguments, and intimidation attempts?

Could it be that there is no more substance to your side of the debate so you are reduced to trying to throw rocks via TCP/IP? Going to break out the hacking scripts like good little script kiddies?

I suppose this should be expected, after all that's the "MO" of Mr. Baxter. Ratchet up threats in hopes of driving off the voice of reason. Sorry, I'm not impressed.

Got any substance to go with all this fluff?

Wrong, stupid, USF is one of the better schools in Florida. But you
couldn't afford to go to a better school could you, pizza BOY?

Wrong again, dumbass. You never do get it right.

BWHAHAHAHA Oh, the irony, Davies because pizza delivery BOY is the
BEST job you could get. BWHAHAHAHAHAHAHAHAHAHAHAHA! That says more
about you than it does about Roger.

> MAKE FREEDOM RING!!

Fuck off, fatty!

Behold he shall ride upon a hard dick and his name shall be Lloyd
Austin Davies.

And it came to pass that the king of knob jobs in Alabama, (as Lloyd is
known) was gone for a long time, and some of the people celebrated and
some speculated that he had died, some speculated that he was ill, some
speculated that he was in Maryland at Ray Chason's apartment, and some
even thought that the king of knob jobs in Alabama had been made a sex
slave by Ray Chason and his butt buddies. It was then the people
started to rejoice.

And when the niggers and crackheads heard the murmuring and rumours of
the people they assured them that the king of knob jobs in Alabama was
just busy sucking on one of his nigger neighbors' big black dicks and
would address the people as soon as he could swallow that big load of
nigger jizz. The neighbors in his hud apartment complex also knew that
the project was the sucking of nigger dicks and telling lies and more
lies, but they did not tell the people this for they did not desire to
have a vice squad nightmare in the city of Deliverance Extras. Alabama
liked to hear about the fat retarded one who proclaimed he was the king
of knob jobs in Alabama.

And the niggers and crackheads reassured the people that everything was
all right, and told them to prepare pyres and to cook meat, and to ice
down beer and nehi soda, and to go out and buy potato chips and other
unhealthy snacks from the traders who had immigrated to the kingdom
from Vietnam and the land of Gaza. And so the went down to these little
stores owned and bought these things. And they went home and warmed up
their TV's, for the sabbath approached and the sabbath would bring more
action from the mediocre football team at U of Alabama, and the sabbath
would bring plenty of exciting nob gobbling action and goo gobbling

from the king of knob jobs in Alabama.

The king of knob jobs in Alabama in reality is a ghastly pale porker who stands only 5'6" and weighs an unhealthy 290 Lbs. His skin is as white as copying paper due to his night job of delivering pizzas to the ghetto neighborhood where he dwells in a filthy, roach infested HUD hovel. He doesn't venture outside during the daylight hours, instead preferring to play with Star Trek and Dalek dolls, post lies and filth on the internet and jack off to thoughts of his unrequited love interest Roger Wiseman and dream of finally actually getting some pussy. Not stick pussy, which his homosexual lover Steve Holsten feeds him several times a year when Lloyd goes for his visits, usually around Thanksgiving.

Lately, the king of knob jobs in Alabama has been consumed with posting pictures of someone he says is Roger Wiseman. In fact, the obviously botched purple rendering of somebody else has been cut and pasted, photoshopped and distributed all over the internet by the king of knob jobs in Alabama and his homosexual fantasy lover Ray Chason who is the king of knob jobs in Maryland. Chason who is also a porker has set up a blog of Roger's ex-wife "Regina" telling even more lies. Roger wasn't ever married to anyone named Regina. Of course Chason and Lloyd refuse to let truth get in the way of their lies, like their butt buddy friends who post lies, lies and more lies about anybody who reveals the truth about this band of homosexual predators.

Billy is really a mentally ill retard named Lloyd Austin Davies. Davies
is a non-achiever who is too stupid and lazy to better himself and has
to work a minimum wage piza delivery BOY "job". He often refers to
himself as a "time Lord" from the Dr. Who sci-fi series. He plays with

Star Trek and Star Wars dolls, too. It's no surprise that at 32 year of age, he's still a virgin.

Wrong, stupid. Davies is the 32 year old virgin. While you are the
bisexual deviant pervert.
And quit projecting your perversions onto others. Sounds like you want
to be Roger Wiseman's homosexual lover like Davies certainly does.

The USAF is not the ARMY, dumbass. They are two seperate services. They
have been since the late 1940's. What is "oporjecting?" Are you drunk

Oh.. One more thing...Because you haven't fully exercised all your internet search options.. I'm not a "no code tech." Never have been one actually. But you would have known that if you where smart enough.

And I suppose you are an Extra Class of 40 years working as a communications lawyer who is a retired FCC employee? No? Ahh don't cry about it, I wouldn't really care if you where either.

And in case you don't notice the sarcasm in my post, I'm only slightly amused, but I sure can tell a joke from serious worth while poster.

I'm not laughing out loud, but there IS a smile on my face.
